March, 1970

## SAFETY IS ESSENTIAL . . .

*Bill Boggs . . . On Safety*

Safety trips off the tongue of most Du Pont employees just as easily as they would tell you the time of day. Bill Boggs is no exception, and this is understandable, because he has been Safety Supervisor at Brevard for the past 6 years.

On February 1, due to rotation of assignments, he changed jobs to Power and Grounds Supervisor. Leaving the safety supervisor assignment prompted him to give a parting message. Here it is . . .

"Safety is as much a part of our job performance as cost, yield, or quality of medical x-ray film.

That's the way it's been from the start with Du Pont. Manufacture of hazardous gunpowder along the Brandywine River in Wilmington, Del., caused the Company's founder, Irenee

du Pont, to recognize a need to protect life and property. He also had a keen awareness for the 'well-being' of each employee.

Accordingly, original manufacturing buildings and equipment were designed and operated with employee safety in mind. Also, rules were established based on experience and common sense, to promote a safe environment with dependence on individual safe performance.

In the ensuing years, the Du Pont Co. has sought excellence in every phase of operation. This has not only resulted in a long line of dependable products, but an enviable Company safety record. Dramatic evidence from 1968-69 industry-wide statistics shows:

Source	Injury frequency per million manhours
All Industry	7.22
Chemical Industry	3.55
Du Pont Company	0.30

## HOSPITAL—SURGICAL COVERAGE

When you have to "ante up" at the hospital for yourself or a member of your family, you generally pull out your wallet and hand over your Blue Cross-Blue Shield ID card. The admissions clerk records your certificate number and other important data, then sends the hospital bill to the Blue Cross office in Durham, N. C.

The convenience and savings afforded by this transaction are made available by your eligibility to participate in Du Pont's Group Hospital-Surgical-Medical Coverage agreement with North Carolina Blue Cross-Blue Shield, Inc.

The cost per month to you for this plan ranges from \$7.93 for individual to \$22.44 for family coverage. After one year of Company service, your cost drops to just 75 cents for individual and \$2.00 for family coverage. These minimum costs cover extended benefits (services beyond basic coverage). Du Pont pays the difference.

Why does Du Pont pay the major part of this insurance premium? The
