

**EMPHASIZE
OUTSIDE
SAFETY**

To focus our attention on the need for improved safety off the plant, the off the job safety committee has adopted a seasonal events calendar. Special events will be staged just before each major holiday under this program.

Two of these events staged recently were held just prior to Memorial Day and July 4th.

The Memorial Day event featured "Friendly Faces You Don't Want To See This Weekend". Patrolman L. S. Goodson of Hendersonville handed out "citations" showing traffic accident statistics. Tom Connors of Medical stood by with emergency stretcher and transfusion apparatus. John Fisher of Maintenance proclaimed "We'll be the last ones to let you down" in front of Fisher's Mortuary.

In star spangled costumes, Darlene Hogsed, Shirley Pace, and Leonard Poteet appeared at the Plant gate just prior to July 4th with handouts on accident prevention.

Both events were video taped by John New of Finishing for showing to the 12 to 8 shift in the lunch room.

"Look for more reminders of off the job safety just before forthcoming holidays", states "Shep" Shepard, chairman of the off the job safety subcommittee.

Our off the job Central Safety sub-committee is determined to keep us on our toes about safety away from our job. We appreciate their efforts to keep us mindful of safety at all times particularly when we're "on our own".

The "Saw"

That's All

**EUROPEAN
EXODUS**

The Common Market will have 33 new customers in August with the arrival in Luxembourg of a contingent of families from Du Pont Photo Products, U.S.A.

Stan Hutchison, Curt Bollar, John Filliben, Sid Bordonaro, Don Stancell, Jim Arnold, of Brevard, and Lajos Keller and Gene Gach, of Parlin, are transferring families (including 17 children), bag and baggage, to Luxembourg to guide construction and start-up of a new polyester unit to supply the European continent.

Prior to leaving, they will receive 3 to 6 weeks of German language instruction. They will also attend a course on Business Council On International Understanding at American University. These 2 courses will prepare them for the shift to European culture.

We wish this group lots of success in erecting another high quality polyester manufacturing unit and in adapting to their new surroundings.

Viel Glueck Und Erfolg!

**DERA
GUN & ARCHERY
CLUB PROPOSED**

Plant management has approved a proposal to startup a Gun & Archery Club according to DERA representative Jerry Surrette Control Maintenance. Land has been allotted for ranges. Preparations to establish both sites will begin in September.

These activities will be sanctioned by the National Rifle Association and the National and North Carolina Field Archery Associations.

Interested employees are asked to contact Jerry Surrette with any suggestions or questions.
