## FRANK BUNCH SAYS FAREWELL

"Vacations, shift schedules and my own moving schedule did not give me an opportunity to say good-bye to everyone. I would like to do so now.

Working with all of you at Brevard was a unique experience for me and one that I am most grateful to have had. I very much appreciate the way you accepted me as an "outsider" into the manufacturing organization from Marketing, and I leave Brevard with a great deal of respect and admiration for the very talented men and women who work there, and make it the truly fine Plant that it is. The part that Brevard has played in the success of Photo Products and Du Pont has been noteworthy and I am sure that you will continue to be successful in the years to come. It is unfortunate that more of us from Marketing have not had an opportunity to experience first-hand the effort and dedication that goes into producing the outstanding products that are manufactured at Brevard. The competition is getting tougher and the task ahead won't get easier — people are what make the difference and in that respect Brevard has the necessary resources.

I will miss very much working with you and hope to have an opportunity to be associated with Brevard again. In the meantime, my family and I look forward to a new adventure half way around the world in the Far East. I realize Taiwan is a long way away, but we would be delighted to have visitors and you would be most welcome."

Sincerely,  
 Frank Bunch

**GOOD LUCK FRANK!**
