Tennis Gets Flying Start

Tennis got off to a good start at the High School last week. Under the supervision of Coach H. T. Lefler, a tennis tournament for boys was held, in which several promising players made their appearance. From all indications the boy's team will be fully as good as last year. It is to be borne in mind that last year's team was runner up for the High School championship of the State. There are at least half a dozen boys in the High School who have a good assortment of strokes and who play the court well.

In the tournament just held, Bill Scott won first place. This victory automatically made him captain for the coming semester. Other boys who made places on the team are: Thomas King, Charles Causey and Leonard Hole. The second, third and fourth places have not yet been definitely decided. Several good players are challenging the holders of these positions for places on the team. Frank Stone, Clarence Scott, Leonard Temko, Clement Penn and Earl Barger are the promising challengers.

The boys who made a good showing in the tournament, in addition to those who made the team are: Clement Penn, Leonard Temko, Dick Crabtree, Earl Barger, Winfield Barney, Howard Ryder, Jimmie McAlister and several others. Most of the boys who entered the tournament have promise of making good tennis players.

Two matches have already been scheduled for this fall. Guilford College will be played at Guilford on Wednesday, October 4, and Burlington High School will be played in Greensboro on Friday, October 13. A match is also pending with Oak Ridge, the State champions of last year. It is not known definitely where this match will be played.

The fall tournament does not determine next semester team, as another tournament will be played in the spring. The spring tournament will give unfortunates another chance to wield their racquets in behalf of Greensboro High School.

Annual Staff Holds First Meeting

The Annual Staff held its first meeting on Thursday, Sept. 28, to discuss plans for the 1922-23 annual.

"Frenzied Finance" was the all engrossing topic. "The cost of the annual must be cut down to half what it was last year," says the Parent-Teacher Association.

At the meeting of the association on Wednesday, the annual was discussed, and the parents declared that it cost too much. Any deficiency in the funds must be made up by the seniors, and the parents bear the brunt of this extra expense.

The staff discussed the matter thoroughly and decided that plans could not be completed until the question of finance was settled.

Accordingly, a committee of three was appointed to meet the Parent-Teacher Association, on the following Thursday, and thrash out the matter.

In spite of handicaps, however, the staff feels that the senior class, with the cooperation of the student body, can put out as good an annual as the one of last year.

A plan is to be worked out whereby the annual will be sold on the small instalment plan, something like our athletic association. The plan will enable more students to buy annuals, as they can be sold at a much lower rate.

Other plans, as yet not matured, to raise money for the annual, promise good returns.

English Council, New Idea, May Prove a Good Thing

In Mr. Barton's two English classes a new plan is being tried out. In each class, five pupils are elected by popular vote, to serve on an English Council.

The purpose of this English council is to assist the teacher in his work, and to put the teacher in touch with the students and their wishes. A further and most important purpose is an endeavor to socialize the class; or to make the class every one's and not his or her's or the teacher's class. The council meets about once a week to solve the general problems. At this meeting, a schedule of the month's work is made, also suggestions are made by the council for the amount and the kind of work the class as a whole desires.

As the plan is still in its infancy, it is not yet definitely known whether it will succeed. However, from all indications, it is going to be a decided success and will bring the teachers and students closer together in their work.
