"It is very probable that construction on the new high school will be under way by January, 1927," Frederick Archer, superintendent of city schools, stated in an interview Thursday, October 21. "This building, or rather, group of buildings, will most probably be located in the northwest section of the city."

The building program, made possible by the decision of the Supreme court, and providing for a fund totaling more than two million dollars, will include extensive remodeling of the grammar schools, as well as the new high school. A negro high school will also be erected.

At present only one high school for white students will be built, though another may be constructed later. This building will have a capacity of 1,200, with adequate provision for athletics.

ALL SEMESTERS ADOPT IDEA OF STANDARD RING

Contract for Four Years Will be Signed By Principal of High School and Superintendent.

This year under the auspices of Semester VI Greensboro High School is undertaking to adopt a standard ring. This has been attempted before but has never been successful. To date the plan has been adopted unanimously by Semesters I, II, III, IV, V, and VI, but as yet no design has been decided upon, nor has any contract been signed. The Seniors will not be allowed to vote on this as they have already chosen their rings.

This plan is being carried forward by a Standard Ring Committee composed of one member each from semesters I through V and three members from Semester VI. This committee, working with the administrative officers of the school, will decide upon the design of the ring. The contract for four years will be signed by the principal and superintendent. The committee is working slowly and trying to secure the best ring, the best design, and the best price, from the best company they can find.

C. auditorium, Thursday, October 28, at 8 o'clock. The cast is composed of the members of the classes in public speaking and dramatics, both taught by Miss Marian Bliss. While the majority are new at the art of dramatics, a good performance is looked forward to by those in charge.

The members of the cast consider themselves particularly fortunate in the selection of plays of such high calibre. All three stand high upon the approved list of the National Drama League. Although the plays have all been written within the last two years, they have been presented by many of the big high schools and colleges of the country.
