

Date For Annual Senior Class Luncheon Set For May 20 At Sedgfield Manor

Thursday, May 20, 1954, is the date of the annual Senior Class luncheon, which is to be held 12:30 p. m. at the Sedgfield Manor.

One of the most important items, the menu, has been decided upon. It consists of pineapple salad, iced tea, and a main course of chicken a la king with candied yams and green peas as side dishes. The meal will conclude with ice cream.

Starting the program off will be Dr. Claud Bowen, pastor of the First Baptist Church, who will lead the invocation. The welcoming speech will be delivered by Jimmy Powell, Senior Class president. Next on the agenda will be some musical selections sung by the Seniors Men—Fritz Apple, Eddie Robbins, Bill Turner and Stewart Cass. Following this group, Tommy McDonald will sing a solo number. The Senior Class will be the final participants by singing "Through the Years" Class song, "Auld Lang Syne," and "Alma Mater."

The guests at the luncheon will be Mr. and Mrs. B. L. Smith, Mr.

and Mrs. Phillip Weaver, Mr. and Mrs. A. P. Routh, The Reverend Claud Bowen, The Reverend Hughes, Miss Eula Tuttle, Mrs. Grace Alton, Mrs. Nellie Kate Blackburn, Miss Mozell Causey, Mrs. Jessie Belle Gorrell, Mrs. Jack Herndon, Miss Mildred Maddox, Miss Sara Mims, Mrs. John Morgan, Miss Edna Nicholson, Mrs. Kathryn Pierce, Mrs. Mabel Pleasants, Miss Virginia Powell, and Mrs. Edna Earle Randolph.

Several committees have been chosen to carry out the luncheon. Heading the table decoration's committee is Mrs. Blackburn; her assistants are Sylvia Smith, Jack King, Johnny Carroll and Bettie Upchurch. The group in charge of favors is Pat Helgesen, Nancy Hilliard, Marion Cornelius, Jean Robbins and Tini Rae Chambers—headed by Mrs. Gorrell. The printed programs designed for use at the luncheon will be made by Larry Welker, Harriet Perkins, Nan Ayers, Nancy McGlamery, and Rose Edwards with Mrs. Herndon supervising.

Expanding Profession Of Physics Explained

"Physics is a rapidly expanding profession," according to a pamphlet put forth by the Bureau of Labor statistics.

Only a school so well equipped as Senior High could offer a beginning in this wide-open field. This year there are two classes on the subject taught by Mr. Stanley Johnson.

To those who are scared away from the course by its ominous title there is a word of clarification from one pupil. George Makely explained, "Physics delves deep into the general science which most people took in the eighth or ninth grade."

As for the opportunities for those who find it a really interesting profession, they are many and varied, according to the aforementioned bulletin.

Electronics holds the largest interest with 20% of the physicists in the field. There are, however, nine other fields from which to choose ranging from the electronics to the 4% which deal in quantum theory.

As for chances of advancement, they are wide-open. In 1952 approximately 550 physicists were awarded doctors degrees, and there is always a demand for more scientists of this type.

As it comes even closer to the time when seniors must choose their work in life, from the information that has been published by the government, physics would be a field of many opportunities.

BY DEANE DARNELL

May is the time for queens and, although this girl isn't wearing a crown, she is still a queen in the eyes of this young man.

January 16 was the time of their first date and on January 31, a Sunday night, at 10 p. m., they started going steady.

"IF YOU LOVE ME, REALLY LOVE ME," by Kay Starr, is the song that they prefer to any other. Also in the list of favorites are some foods, ice cream for her and he chooses steak.

Although these two people both play basketball, (he was number seven) their best-liked pastime is playing tennis, a sport that goes right along with the month of May.

Oh, there's one clue that you should know, his name is not Bob.

Once when this squad member called his queen of May, her mother answered and said, "This is Bob, isn't it?" and before he could answer no, she started a conversation. Somehow he got the idea she had been dating someone named Bob. Well, let's let her explain.

That's not the only embarrassing incident that has happened to them. They attended church together one Sunday and as they were leaving, his mother introduced her as "Virginia."

Look for these names in a popular ad.

J. C. L. Elects Officers For 1954-55 Sessions

A new staff of officers was elected as Mahy Ellen Kaelin, president of Junior Classical League, presided over the last meeting for the year Thursday, May 6, in room 6.

The program was opened by Mary Ellen reading the constitution to the members. The most important business—the election of officers—followed this recitation. Candidates for the various offices had been previously proposed by a nominating committee.

The new slate of officers chosen are as follows: Caroline Sikes, president; Marcia Felt, vice-president; Nancy Key, secretary; and Angela Butt, treasurer.

On the completion of the election the meeting was adjourned.

WINNING FIRST PLACE IN the school competition for the oration on Courteous Motor Manners and How to Promote Them held on Thursday, May 7, was Dan Wood. Runner-up in the contest was Hugh Price.

Senior Boasts Artist; Portrait Painting

Since time began people have tried to record visions by drawing, and GHS students are no exceptions.

Everyone is endowed with a certain amount of eccentric ideas to qualify them as a GHS individual. Judy Evans, a senior, fills the bill. For instance, she prefers to disband the common way of taking a picture (with a camera) to spending endless hours with a paint brush and oils to get a reproduction.

It all started with a very close friend of her great great aunt who was an artist. Naturally, Judy saw the hereditary connection at once and knew she must have inherited a vast amount of artistic talent. Thus, she started making plans for her career as a portrait painter early in her life.

Her "hunch" seems to have panned out quite accurately, for now she is paid in money for her paintings. Among her recent subjects for portraits were several GHS students—Mary Ellen Kaelin, Dawn Tucker, and Ellen Dennis.

Judy wistfully stated, "Next year I plan to attend R. P. I. in the attempt to gain further background for becoming an artist."

Billy Holderness, a junior this year at GHS, is another talented and versatile artist. He is best known around Senior for his cartoons, but he also likes to do caricatures and sketches that point out something. His favorite mediums are pencil, water colors, and pen and ink.

Artistic talent seems to run in the Holderness family too. Billy's grandmother won several awards for her paintings and one of his aunts does excellent portraits; also, his sister designs clothes.

Billy's art background comes from his natural talent, plus a year of art, a year of drafting, and a year in GHS's art department. When asked about his future plans

A SURE BET

Hi there, everybody. Only a short time is left until school is out, but first of all exams must come. Well, here is a chance to cure those "exams blues"—a CinemaScope-technicolor production, POINT OF NO RETURN, starts at the CAROLINA THEATER Sunday and plays through Tuesday.

The stars? None other than Marilyn Monroe, Robert Mitchum, and Rory Calhoun. Other stars are Tommy Rettig, Douglas Spencer, and Marvyn Vye.

POINT OF NO RETURN is a western of the great open spaces. It has plenty of originality, action, and suspense to attract almost anybody.

The indescribably beautiful scenic background of the Canadian Rockies makes it a well-rounded picture of action and romance.

All of these "real cool" ingredients are welded into an entertaining and exciting film produced by Stanley Robin and the director of the picture, Otto Preminger.

So do come to the CAROLINA THEATER. "POINT OF NO RETURN" will appeal to young and old, male or female.

A sure bet and a must for your movie calendar.
