## Student Council Head Attends Safety Meet To Plan New Project

Bill O'Brien, student body president, attended a meeting of the National Education Committee On Safety Education in Washington, D. C., September 28-30.

Bill, president of the North Carolina Association of Student Council, was selected to be a delegate by the National Association of Student Council. He left Greensboro Friday morning and returned late Sunday night. His expenses were paid by the Automobile Industries, an organization which sponsors a committee on safety.

He, along with nine other young people and 15 adult advisers who were representative of the 48 states rather than individual schools, spent the three days discussing ways to make youth safety conscious. Their chief aim was to set up a safety education program for the high school youth of America with principal emphasis placed on promoting safety among youthful drivers. At present the campaign is being conducted on a national level; however, it will be set up on a state and local basis later.

It is the hope of the committee that their campaign can be conducted in conjunction with the other school organizations which work to promote safety in schools. Still the promotion of the campaign will be a major council project. Later in the year, Student Council members will present an assembly program telling the student body about their campaign plans. The results of the safety drive in each school will be discussed at the National Student Council Convention in New Mexico, June 1957.

Libby Garvin, Homecoming Queen for 1956, and Nancy Lambeth, council sponsor to the queen, will be presented during the half at the Burlington game November 9. Libby will be escorted by Bill O'Brien, student body president, and Buck Hoyle, student body vice-president, will escort Nancy.

## Tom Hudgins Spearheads Three Key Club Projects

Tom Hudgins, president of the Senior High Key Club, has spearheaded the projects of the club during the early part of the year. The Key Club has engaged in three big projects this year. The annual Key Club School Directory, which is given free to every student and teacher, is the first project. The boys began working on this before

the school year started. They solicited a large volume of advertisements, whereby the club makes its profit. David Craig, treasurer, is in charge of the compiling of the book. It is slated to come out early this month.

During the first week of school the Key Club furnished name tags to every student and teacher for the purpose of letting everyone get acquainted with each other.

At the Charlotte football game the club started a practice which they hope to continue for the other home games. The club secured the names of 30 boys who would not otherwise have been able to attend the game, and took these youngsters to the game. They were admitted free and sat as a group next to the Whirlie cheering section. Joe Bowles was chairman of the project.

At a meeting September 19, the club voted to make Bobby Johannessen, senior, an active member to replace Pete Wyrick, who has gone away to school this year. Pete's name, however, will be left on the permanent roster.

This year Fred Preyer replaces Bill Craft as adviser to the Key Club. Mr. Craft has now become head of the three Greensboro Key Clubs, the one here at Senior, one at Curry High, and one at Bessemer.

Key Club members took 30 boys who would not have otherwise been able to attend the game to the Charlotte-Whirlie football game here on Friday, September 21. The Club hopes to continue this practice for each home game.

## Judy Shallant Writes In Greensboro Record

Judy Shallant, senior, is writing City School News, a daily column which appears Monday through Friday in the GREENSBORO RECORD, this school year.

The column includes all news and events occurring in the 21 city schools and is the only way for any school, excluding Senior High, to be represented in the newspaper. The first article was printed Monday, September 17, and has and will continue daily.

City School News is about 15 years old and was started originally as a project of the Distributive Education Department here at Senior High, although now it is solely an individual responsibility. No other newspaper in the country has an article exactly the same as this column, and in the journalism profession it has aroused many inquiries and national attention.

This is Judy's first attempt at such an article, but she has had journalism experience, as she is associate editor of the HIGH LIFE.
