

Sawers Has Combination Repair Shop, Ham Station

Drop by Jim Sawers' home some night, and you'll no doubt find him shut up in the attic either repairing TV sets and radios or "hamming" with one of his many radio buddies.

Jim claims that there couldn't be another attic in the city of Greensboro or the state, for that matter, like the one at 1207 Cornwallis Drive. It looks like a cross between a Radio-TV repair shop and a radio receiving room—transmitters, tubes, wires, earphones, screw drivers, etc. all over the place.

First Set

Upon receiving a crystal set when "just a little boy" he immediately developed a keen interest in the electronics field, but never dreamed he'd become the enthusiastic hobbyist he is today. That little set was just the first of numerous boxes, crates, and sacks full of similar equipment to pass the Sawers front door and up the steps to the attic.

Jim didn't become interested in really "setting up shop" until last fall; until then he just used his equipment and knowledge as a hobby. Then, however, he decided to put it to good use. What better use than opening up an honest-to-goodness repair shop? The city zoning committee didn't agree with him, though, and it was February, 1957, before he was finally granted permission to begin his business.

Repairs Set

Since then he has repaired TV sets and radios for many friends and neighbors bringing his earnings up into the neighborhood of \$1500. Most of the \$1500 has been spent on equipment. Looking to the future he says, "I figure the equipment will depreciate very little;

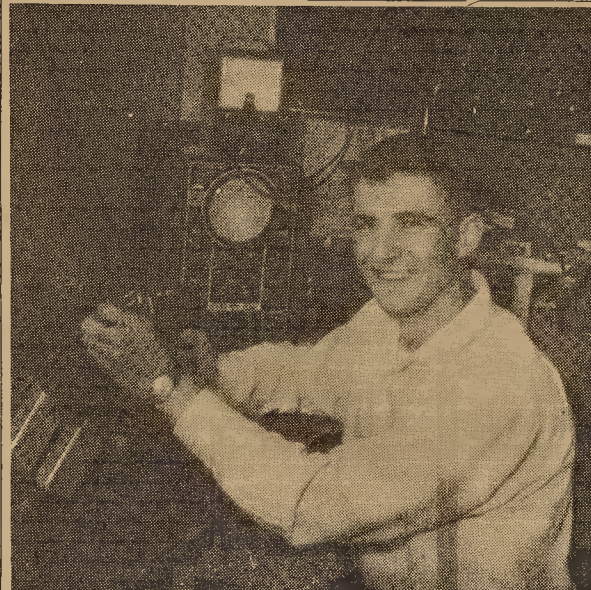

therefore, I'll enjoy it now and sell it later in order to help get myself through college."

Ham Operator

When he isn't working in the shop, Jim is usually talking with other ham operators over the city and state. He has communicated with points distant as New Zealand and Australia. More recently he has picked up the beep-beep of Russia's moon satellite.

A versatile person, Jim also is an ardent oil painter, specializing in landscapes. His \$1500, he hopes, will see him through college offering an extensive science program where he will major in physics.

Incidentally—Jim enjoys scientifically aided practical jokes—So beware!

Joanne Woodward Stars In Pictures At Carolina

Starting Sunday at the CAROLINA THEATRE and playing through Wednesday is the 20th Century Fox production "No Down Payment" starring Joanne Woodward, Sheree North, Tony Randall, Jeffery Hunter, Cameron Mitchell, Patricia Owens, Barbara Rush, and Pat Hingle.

This is a story of the social, economic, and emotional problems of four married couples.

"No Down Payment" is produced by Jerry Wald, who recently produced "An Affair To Remember." The story itself is based on John McPartland's forthcoming novel.

Playing Thursday through Saturday is "The Three Faces Of Eve," which stars Joanne Woodward, also in "No Down Payment," David Wayne, and Lee J. Cobb with narration by Allstair Cooke.

This case history of a multiple personality is rare in medical annuals and is the first to be completely documented. It is pointed out in the introduction by Allstair Cooke that no writer could concoct a stranger tale than that of the young woman beset by two entirely different personalities, with a third emerging under psychiatric treatment.—Ad.
