Judges See Two Ways

With a lead of four points, the Freshman class ranks first in editing THE QUEENS BLUES contest issue for the year. With a lead of four points, the Sophomore class ranks first in business management of its issue.

The papers are judged on the basis of editorial qualities, journalistic technique, and advertising management. From the standpoint of editorial qualities, timeliness, quality and extent of interest of the articles, structure and style of writing, make-up, features, headlines, editorials, and the functional purpose of a newspaper are considered. One other phase of editing, that of proof reading, was not included in the final score this year. Due to accidental complications connected with both the Freshman and the Sophomore issues, the judges could not consider this from a competitive point of view.

The business management of the issue is judged on the basis of comparative financial returns, and number of new ads obtained for the issue, the business report itself, and the comparative profits made.

The two contest issues each year are put out by Freshman and Sophomore staffs elected and appointed from their respective classes to take charge of the contest issues only. No faculty supervision or assistance is given to either staff.

The judges were Dr. Stout, Dr. Delano, Miss Denny.
