Farbman Symphonietta Opens Concert Series

Audience Calls For Several Encores

Twelve men and a girl sent the auditorium resounding with applause at the opening of this year's concert and lecture series. The group comprised the Farbman String Symphonietta.

Miss Edith Schiller, pianist, was the assisting artist. After the concert the members of the symphonietta were surrounded by students to seek autographs, musical knowledge and just general introductions. When asked to name his musicians, Mr. Farbman laughed and said, "You would ask me that!" There began a humorous game in which the whole orchestra joined. It seemed that almost no one knew how to spell the men's names—including the men themselves. Someone lent a fiddlecase to be used as a writing table, and the resulting names were something like this: Harry Rosoff, Myer Adoff, Henry Pekalin, Leopold Teraspulsky, Rosario Celentaro, and Samuel Hollingsworth. All of the men hailed from New York except three, who came from Boston, Connecticut and Alabama. "Be sure to underline that Alabama," said the Southern gentleman. "Oh, Boy!"

The program for the evening was:
Concerto Grosso D Minor.....Vivaldi
Allegro, Intermezzo, Allegro moderato

SerenadeTchaikowsky
Pezzo in forma di Sonatina, Waltz, Intermezzo, Allegro moderato

Intermission
Fantasie Impromptu.....Chopin
Ballad in G Minor.....Chopin
Edith Schiller

La Oracion del Terror.....Turina
Turkey in the Straw....George Steiner

Both Miss Schiller and the Symphonietta played two encores each. This musical group also opened Davidson's concert and lecture series with a performance last night.

Dr. Johnston Speaks About American Ideas

With the beginning of a new series of chapel programs on current topics, Dr. Frontis Johnston, of Davidson College was presented Thursday, October 23. Dr. Johnston is well known throughout the state as an authority on politics. He spoke to the student body on "What an American Ought to Believe."

America is now on the edge of a precipice. There is a great need for something firm to hold to, and Democracy fills this need. It has rigid basic ideas, but it allows the individual to think as he likes. American democracy was founded to try to solve the problem of liberty to man on the one hand and law and order on the other. England had tried to do this but was unsuccessful. At first the American democracy was too extreme, but now our democracy is a compromise between liberty and order.

Democracy is composed of three essential parts—economic, political, and spiritual. The economic freedom of the United States came first and afforded equal opportunities for wealth to all.
