

ISSUES for YOUTH con't.

Misery, oh, Misery

Misery is:

when your parents have to sign a test paper and the only marks on the paper are "XXXXXX's"

when you try to explain to your teacher why you are late to class!

when you break your leg the day before basketball practice begins.

when you do the wrong page in Algebra for homework.

when you have to sit in Mrs. Park's English class with the windows wide open while the snow blows in because some NUT didn't do his homework!

when you tell a joke in class and you are the only person to laugh.

when you are lighting a cigarette in the restroom and the PRINCIPAL walks in.

when you write a paragraph for your class, and you are the only one who understands it.

Larry Thomas Hawley

Handwritten scribbles

Today, students are listening to the most prominent musical records based on "What is going on in the world." The lp's lament the war, pollution, heroin, and the miseries of children, and the poor. Brotherly love has been growing more fashionable for months. (About time!) Here is a look at the top ten records as of now.

- 1. Inner City Blues Marvin Gaye
- 2. Theme from Shaft Issac Hayes
- 3. You've Got to Crawl
Before You Walk 8th Day
- 4. Have You Seen Her Chilites
- 5. Wear this Ring Detroit
Emerald
- 6. Maria, You're The
Only One Michael
Jackson
- 7. Walk Right Up to
The Sun Delfonics
- 8. Tired of Being Alone Al Green
- 9. Trapped by This
Thing Called Love Denise LaSalle
- 10. I'm a Greedy
Man James Brown

Questions About Smoking

Question: Why is there so much concern about smoking?

Answer: The younger a person is when he starts smoking, the greater the risk that he will become ill, or die at an early age.

Statistics show that the smoker who takes up smoking before he is 20 years old is most likely to smoke more cigarettes, for more years, and inhale more deeply.

Question: Do cigarettes affect women's health?

Answer: Yes, cigarettes do endanger women's health, but very few studies have examined the smoking habits of women. However, it has been proven that women who smoke during pregnancy run a much higher risk of having their children born deformed, retarded, or dead, than do women who don't smoke during pregnancy.

Question: Where can I obtain information about smoking?

Answer: Write to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C.. Ask for some of the following booklets:

Your Teenage Children
And Smoking----Pub. 423 15¢

Why Nick, the Cigarette, is Nobody's
Friend -----Pub. 447 ----- 10¢

A Light on the Subject of Smoking
-----Pub. 448-----15¢

No Smoking- A Kit of Five
Publications -----65¢
