AMERICANS

AMERICANS! Sure we are Americans, and good Americans too--we folks at home. Of course, occasionally some person is called before the Rationing Board for violating the pleasure driving ban and loses a large or small portion of his gasoline.--(That means more for you.) Cften you will hear a complaint about a shortage of sugar, coffee, or other things we like. Yet when you talk earnestly about this situation, every person at home is ever ready to sacrifice these things in order that the best armed forces in the world--The United States Armed Forces--may have the best supplies and provisions.

You may be far from us, however we know that you are fully aware that your hopes and fears are our hopes and fears. We do not have the opportunity to experience the excitement and thrill which you undergo. All right, we agree with you--this writing is much easier than drilling, early rising, etc. Anything worth having is worth the sacrifice we must make and the United States of America and the American way of Life is worth all that and more too.

Gentlemen, we are all for you. God speed the day that peace may reign again.
