FAITH

Let us have faith. Surely, as never before, we need everlasting faith in God and Mankind. Faith in victorious events to come and the world of peace to follow. Faith in the United States and the United Nations. Faith in our fellowmen.

It would seem that men and women in the service of the armed forces have the best opportunity ever to secure an insight on human nature--to learn means of judging and establishing faith in your fellowman. You surely meet all types of individuals who have had all sorts of experiences--the rich, the poor, the proud, the humble, the wrong, the right. Each person has something to contribute to your life and you in turn may contribute good to their lives. Make good use of this opportunity. Each person you understand well means added faith in mankind.

Establish greater faith in the United States and its leaders for herein is vested the fate of our future. Sure mistakes are made and will ever be present. Your government leaders and your Naval and Military leaders need resounding votes of confidence. Let us have faith in and become the greatest blessing of the finest product--The United States of America. And then faith in this integral part inculcates faith in the whole--The United Nations.

Faith in God lends toward an air of security, of optimism, of happiness, of contentment, of solidarity into the events to come and the world of peace to follow. May we all share it and be a part of it.

Abraham Lincoln significantly stated, "I have faith in the common people. All the people the truth and the Nation will be saved".
