

MABREY COLEY, JR. A/S: Mabrey was our visitor on December 13, 1943. He has just completed his Boot Training of three weeks at Jacksonville, Fla. Upon returning to camp, Mabrey will take six weeks training as an Aviation Machinist Mate. He was glad to get back to Rocky Mount on furlough.

PVT. WATSON DOZIER: Home on 15 day furlough. Pvt Dozier was inducted at Fort Bragg. He was then sent to Florida--to Scott Field, Ill.--Truax Field, Madison, Wisc.--and later to Iowa where he entered Schick Gen. Hospital. After being dismissed from the hospital, he was sent to Chanute Field, Ill. for re-classification and then back to Truax Field, Wisc. Watson was going to Radio School but for the time being, he is doing detail work, waiting for an assignment. He expects to get in a Casual Office. Watson says being in the Army is not bad at all. He works 7 days a week and about five nights. We really enjoyed your visit, Watson and hope to see you again quite soon.

LT. G. GORDON FLOE: Lt. Floe, of Banana River Naval Station, visited us in November on his way back from Rhode Island where he and Mrs. Floe visited relatives. The Navy has done all right by Gordon. He is looking fine. Mrs. Floe shares a greater part of this credit with the Navy. Lt. Floe is doing a splendid job as Ships' Service Officer. Banana River Naval Station has received commendation from the Admiral for having the best Ship' Service Department in the U. S. Navy. Hope you will pay us a visit during Christmas holidays, Lt. Floe.

EXAVIER HIGH: Due to delayed orders, Ex. was lucky enough to come by to see us before "shipping out". We knew better than to ask where his destination would be, for Ex. is "true to the Navy". He has made several trips to Africa, South America, and has covered the foremost corners of the Atlantic and Canal Zone---all without harm. We hope your good luck will last, E x. What did you say about finding a young, beautiful Italian girl? Keep us posted as to the progress you make.

PFC. RUDOLPH PULLEY: Rudolph was our visitor 11-17-43. He is now on M. P. duty at the U. S. Army Air Base at Kearney, Nebraska. He likes this much better than his former guard duty. Rudolph says that M. P. duty off the base is rather "rugged", so prefers his duty on the base. We enjoyed having you and hope you can come again soon. Why not write to us?

GEORGE C. ROSE, 1/C: George is now a 1st Class Seaman. He is still stationed at Ocean City, Md. and likes it fine. He is getting anxious to try his luck overseas. We are sure you are doing your part on this side, George. Don't get too impatient. Write to us soon.

PVT. WILLIAM E. WALLACE: Pvt. Wallace was our visitor on 11-15-43. After his induction at Fort Bragg, N. C., he was transferred to Camp Stewart, Ga. Earl says his basic training was plenty tough---rattle snakes, alligators--and K. P. Duty. The worst is over now--He is a switchboard operator and likes his present setup fine. Really, we enjoyed your visit. Hope you can come again soon.
