

He says many of the boys there read his copy of the CAROMOUNT NEWS. Roscoe hopes to return to the states--and Rocky Mount soon. Caromount will surely welcome a visit from AOM 2/C Harrell.

EXAVIER HIGH, Y 2/C: Exavier is "somewhere in the British Isles" and evidently doing O.K. --He writes, "I am still going strong in the line of recreation. There are plenty of girls here so you can bet your life I am doing all right. He is in communication work and naturally he could not tell anything more about his line of duty. He likes the British Isles, but he states "What I wouldn't give for some of that North Carolina sunshine".

PVT. CHARLES M. JOHNSON: Charles has been transferred to Bruax Field, Wisconsin and during his first day there he talked with Cpl. Watson Dozier, Caromount Service Man. Charles is in the Radio Mechanics School at Bruax. He was qualified for four other schools which he preferred, but he was assigned to radio. He said he had a choice of two things, "Take it and like it, or not like and take it anyway". During a delay in Chicago, he enjoyed a Bond Rally Show with Jack Benny as M.C. along with Rochester & others. Charles was one of 50 who volunteered their services on their "day off" to assist in clearing a nearby town of its tornado wreckage. He commended the Red Cross for their fine work. We also commend Charles for his fine volunteer services.

PVT. JOE LANGLEY: Joe's whereabouts were not stated in his letter. We guess that he is quite busy wherever he is. His letter assured us that he was "well and doing fine". He wrote, "There isn't much news I can write about but I assure you that you can depend upon the fellows to do a swell job". We know that Joe is contributing his best efforts toward this "swell job".

PFC. SAMUEL LANGLEY: Sam sent us a "Howdy" message recently which we quote below:

"Just to let you know
I'm not lost, strayed or stolen---
Everything is swell with me,
And I'm feeling O'Kay, too.
How is the home front doing,
And how is everything with you?"

P.S. Thanks for the CAROMOUNT NEWS. Most of the boys with me look forward to reading it as much as I do. We are glad to hear that all is well with Sam.

SGT. OLIVER PARKER: Sgt. Parker is now in Hawaii. Parker is a proud papa of a little girl as of early May. He states, "I am very sorry I could not get home, but you know we have a war to win". Good luck to Papa Parker.

PVT. WILLIAM P. PARRISH: Pvt. Parrish writes from Camp Atterbury, Indiana stating that he is well. Bill may be interested to know that Exavier High stated, "I sincerely agree with Bill Parrish"--North Carolina is the place for me. We hope all of you will be home soon.

P. F. RUSS, JR. S 2/C: Fleet writes, "I am sorry I have not written before, but I have moved so many times and so far away that I have hardly written to anyone. I would like to tell you something of this place but the censor would not like it". He says that he likes the Navy fine. The Navy undoubtedly has "good chow" for Fleet has gained weight. Here's hoping that S 2/C Russ will send good news to us soon.
