Farrow, Burnice Farrow, Peggie Hogg, Ernestine Jones, James Merritt, Norman Merritt, Ruby Lee Jones, Carl Madox, Peggy Norwood, Garrett Weaver and Mary Williams.

Senior Class News

By Polly A. Purefoy  
 The seniors, under their advisor, Mrs. M. D. Turner, and president, Seabrew Ford, are making unusual progress.  
 The study of Vocational Guidance gives the opportunity of choosing the occupation most desired. Some of the occupations being studied are mechanical engineering, architecture, dietetics, stenography, home economics, nursing, dentistry and civil service.  
 Vocational Guidance is very important in all high schools; it gives all students a chance to select certain occupations and study the requirements of each before entering into their occupational careers.

Grammar Grade Department News

The Grammar Grade Department was honored in having Rev. D. W. Roston as its guest speaker at their assembly program, Wednesday, Jan. 25th. Rev. Roston's speech was very interesting. He told us that we all had an equal chance to make ourselves useful citizens. The audience enjoyed his talk and hopes he will be back soon.  
 The movie, "Junior Citizens," was shown before his talk. This movie showed us how all boys and girls regardless of race and color can build good citizenship.  
 —By Mary Mason—Grade 5A.

Class Study Stars

Grade 6B is studying about the stars. The stars are part of our solar system. Our own earth is a part of this system and when compared with the universe, it is only a speck. Some of the important things to know about the stars are listed here. It takes many years for light from the stars to reach the earth. Many different hot gases around the stars cause them to glow or shine. Light travels at the rate of 186,000 miles each second. The sun does not rise and set but the earth rotates making day and night. We are looking to learn more about the stars, planets, and the universe.

Thomas Booth  
 Morris Mason.  
 6B Grade.

4A Visits Planetarium

Our class went to the Planetarium with our teacher. We saw a lot of signs which showed us where to go. We could not get lost. It was a very large place. We saw the stars, sun, moon, and planets all in the night. When we got outside it looked and felt very funny. We learned very much at the Planetarium.  
 —Lillie Lee Perry—Grade 4A.

Poet's Nook

WE ARE LUCKY  
 Pins have heads but they cannot think;  
 Needles have eyes but they cannot see;  
 Combs have teeth but they cannot eat;  
 Shoes have tongues but they cannot talk;  
 Chairs have legs but they cannot walk;  
 We can do all these things.

SMILE AWHILE

Wife: "John, there's a mouse in the other room I hear it squeaking."  
 Husband: "Well, what do you want to do, get up and oil him?"
