

# The Lincoln Echo

Vol. 20, No. 4

APRIL, 1952

CHAPEL HILL, N. C.

PRICE 10c

## DR. LEBAL SPEAKS TO ASSEMBLY

Dr. E. Lebal from Germany spoke to us about the educational system in Germany. The difference between American education and German education varies quite a bit. Instead of waiting until you reach college to pay for your education, you must pay when you reach the fifth grade. You must also choose what you wish to be in life, when entering the fifth grade. This is necessary because of the fact that from the 5th-12th grade separate schools are attended in order for you to prepare for your life's work. In my opinion, this is a great disadvantage. Children are forced to go into different fields at the age of 10 or 11. Most of the decisions are made by the parents. At that age you probably feel that you want to be whatever your parents want you to be, but as you mature, your mind changes. Unfortunately, you cannot change schools unless your family is rich and very few rich families are found in Germany.

## OTHELLO CLUB PRESENTS "THE LITTLE MINISTER"

On Thursday, April 3, the Othellians of Lincoln High, presented the three act play entitled "The Little Minister", at the Northside Elementary School, under the direction of Mrs. M. D. Turner.

Ernest Cordal starred as the "Little Minister," Barbara Jean Burnett as "Babbie", an Egyptian girl. Other characters were Barbara Campbell, Margnet Dishart, the mother of the "Little Minister", Mora McLaren, Marian Galashaw, Jean McFadden, Gloria Mason, Rob Dow, Robert Winston, Effie Dow, Martha Norwood, Dr. McQueen, John Clark, and Halliwell, William Burnett.

Recently the Othello Club presented the Fayetteville State Teachers' Players in three one act plays. "Happy Journey" one of the three one act-plays was unusual, in that it consisted mostly of pantomime.

## First Annual Band And Chorus Spring Concert

The Lincoln High School Band and Chorus gave their first annual Concert on April 18, 1952. This concert was an unusual affair. There were a variety of songs from all classes of music.

All members of both organizations worked diligently along with their directors to make this concert the best ever presented.

The concert proved to be a real musical to everyone who attended.

## GIRLS VISIT BENNETT COLLEGE

Each year Bennett College, Greensboro, North Carolina has *Youth Day* at which time high school senior girls from various places visit Bennett College.

On March 29th and 30th two of our senior girls, Velma Bell and Iola Baldwin, attended this annual meeting. Discussions were held and a film was shown to guide the girls in choosing vocations for which they are best suited. Points brought out in the film to consider in choosing a job are (1) to analyze yourself and your ability, (2) to study the occupation, and (3) to consider your financial problem. There were many more minor points to be considered.

The freshmen girls at Bennett acted as hostesses to the visiting girls. The trip was both pleasant and beneficial to Iola and Velma who may attend Bennett next year.

## Our Visit To The Vocational Agriculture Department

As a part of our freshman orientation program the boys of the eighth grade, section B visited the shop to learn of their shop work for next year.

Mr. Smith, the Vocational Agriculture teacher, gave a lecture on the work we would do next year. He showed us the record book that would be necessary for each boy to keep. Then he

## Eighth Grades Have Orientation

### HIGH SCHOOL AND YOU

Since March we have been discussing "What Do You Want To Become?" "High School and You!" "My Future Career!" and "The Three Main Reasons For Going To High School."

Many of our students would like to become nurses, airplane hostesses, teachers, druggists, veterinarians, doctors, beauticians, W. A. A. C.'s, Mathematics teachers, home-economics teachers, and the like.

We have written papers on "High School and You!" "My Future Career" and other activities in High School.

The three main reasons for going to high school are:

1. To better prepare you to earn a living.
2. To get more out of life.
3. To be of greater service and to do more good in this world.

Miss Pope, the Home-Economics teacher, came to talk to us on the advantages of taking home-economics next year. These are some of the things you learn.

1. How to prepare foods.
2. How to make your future home happy.
3. How to prepare a budget.
4. To know the different kinds of fabrics to buy when making an article.
5. Child care and management.

But the main purpose of taking Home-Economics is to help pupils to prepare for home-making with all its responsibilities and advantages.

Malissa Farrington

told us that in shop work just as in a club we had rules to follow and he assured us that if we follow these rules accidents were not likely to happen. He said that the boys in their freshman year were taught to use hand tools because in the home there are not always electric tools to work with. He showed us the electric tools and the hand tools and a chicken incubator.

The boys showed much interest and asked questions during the discussion period.

## LINCOLN HIGH HONOR ROLL

The following students made an average of B plus or above for the fourth period and are therefore placed on the HONOR ROLL: of the school:

7A

Mary Mason, Espher Foster, Annie Burnette, Betty Jones, Napolen Nevilles, Thurman, Edwards, William Farrington, Wallace Oldham, Nathaniel Jones, William Nunn, Joseph Burnette, Roosevelt Sanford, Preston Smith and Delores Edwards.

7B

Leo Leak, Jimmy Mitchell, Pauline Edmond, Lula Jones and Hilda Pendergraft.

8A

Allen Mason, Ida Ruth Battle, and Carolyn Brewer.

8B

Thomas Booth, Herman Burchette, Malissia Farrington, and Dorothy Atwater.

9A

Druscilla Clark, Vivian Farrington

9B

Faye Atwater, Katrina Baldwin, Barbara Burnette, Betsy Cordal, Frances Hargraves, Arnold Harris, Bertha Headen Betty Hogan, Carolyn Hogan, Alberta Jones, Alicia Jones, Martha Norwood, Beatrice Robinson and Gloria Vickers.

10A

Betty Briggs, Ernestine Cole, Annie Jones, Cletus Clark and James Cotton.

10B

Margaret Ward, Robert Winston, Jean Wright, and Ernestine Powell.

11A

Ola Farrington and Wenzon Thompson

11B

Emma Harriston

12

Iola Baldwin, Gloria Mason, Ernest Cordal, James Hester Frank Robinson, and Edwin Caldwell.
