

SPORTS NEWS

The 8-A and 8-B boys 4-H Club have organized a softball team and have chosen Clevan Atwater captain from 8-A and Wallace Edmond Oldham captain from 8-B. We hope to have a team as strong as last year. We lost only one person, our short-stop, Douglas Clark, who was sent to the ninth grade.

We have planned to visit several of the schools in the county before school closes. The nine starters are Clevan Atwater, first base, George McCauley, second base, Wallace E. Oldham, short-stop, and Willie Pendergraph, third base, Thomas Suitt, catcher, Lexington Jackson, centerfield, Nathaniel Farrington, rightfield, Napoleon Jones, leftfield.

Mr. "G's" Swing School

On March 23, some members of the seventh and eighth grades had the pleasure of attending the "Swing School" at Hillside High School in Durham.

The "Swing School" was a program composed of singing of popular numbers, dancing, beautiful costumes and scenery.

Thanks to Mrs. Kornegay for making it possible for us to

Boys' Club News

On March 25, 1953, the Boys' Club met with Mr. E. D. Lowery, the Boys' Counsel chairman, presiding. Robert Winston was elected President by a unanimous vote, and Ross Farrington was appointed secretary. There were comments and remarks made about the dress and smoking of boys on the campus. Suggestions were made in connection with the idea of setting up a baseball or softball diamond.

Booklets were passed out entitled "Straight from the Shoulder," which deals with the cleanliness and dress of boys.

SCIENCE NEWS NOTES

The members of the General Science Class under the supervision of Mr. E. D. Lowery, are very happy to have with us, Mr. F. E. McNeill, a practice teacher from North Carolina College at Durham.

During the past several weeks we have been studying food and its importance to the human body. During this period of time we have discussed the amount of calories needed per day by boys and girls from the ages of 14 through 17.

On one of our trips to the science laboratory, we tested for the presence of sugar and

attend. ANNIE BURNETTE

starch in some foods.

We are anticipating a display and a field trip in the near future.

Home Ec. III Class Hears Guest Speaker

The Home Ec. III class, in connection with the unit, "Choosing Your Life's Work," presented Mrs. Williams, Director of the School of Nurse Education of Lincoln Hospital, Durham, North Carolina, and four students of the School of Nursing to the class and all interested senior girls, recently in the home economics classroom.

Mrs. Williams introduced nursing education as one of the most essential and inspirational vocations of the time. "Nursing education has had its face lifted," said Mrs. Williams. "It no longer is a profession for just any dull person, but it attracts

those best prepared, and the highest ranking students whose personality and character traits are good." The speaker stated further that nursing education is a chance and an art. To study it, one must pass certain standard tests with high rating. In short, the visitor made the nursing field appear very attractive to students willing to work for an education.

The four students of nursing conducted a round-table discussion on nursing from the student angle. Outstanding in the contribution from the students was a paper on the subject, "Why I Chose Nursing Education," presented by Gloria Johnson of Hillsboro. In her paper, the writer outlined the qualities of a real nurse. She also told much about the social life of the nurse in training. From the rules that govern the nurse's life the Home Ec students could see that to be a successful nurse one must apply herself dilligently to study and duty.
