

**Ag. Dept. Sponsors Annual Toy Drive**

The Local Chapter of the New Farmers of America took as their first community service project for the year the repairing and re-painting of toys for the Empty Stocking Fund.

During the summer the chapter members were asked to work with the local empty stocking fund in this connection by Mrs. Hanna, Chairman of the Chapel Hill Empty Stocking Fund. This activity having been a part of their annual Christmas services to the children in this community, the members were glad to the opportunity to expand their activities to include a larger number of toys as well as families.

The members of the chapter have made this an educational project as they used his as a means of learning the names and various uses of tools, the development of techniques necessary for good painting, the use of various kinds of nails, screws and bolts. This project affords a wonderful opportunity for the creative mind of the boys to be utilized to its fullest extent.

**—DEMOCRACY—**

(Continued from Page 1)

restricts the free movement for happiness, for cultural advancement, and for full participation in the social agencies that operate for the people, is not a real democracy.

Democracy cannot really be taught; rather it is something to be caught; it can only be knowledge from experience. It must be lived from childhood and produced in a living form. Like religion, democracy can be successful only if it is really understood and lived. It cannot be built over night, as Americans well know.

If a democracy can keep alive its love of freedom, of strength, of just enforcement of law, of practicing morality and economy, it can avoid that inequality which leads to tyranny.

**SCALP TIME!**

They tell me S. E. M. has been seen in A. B. H.'s Blue "Kitty".

There is news out that W. W. is nosing around with C. F.

Do you mean to say that C. A. took D. A. from M. B.?

Why doesn't the period (B. J. B.) keep her mouth shut?

I wonder what B. N. did to make this girl in the 9th grade so crazy about him.

It is said that J. M. is madly in love with S. E. M.

There is a rumor that R. S. is hiding behind the Recreation Center just to look at E. L. M.

They tell me W. P. had G. B. in his old man's car. What's wrong F. W.?

There is news that H. T. S. has been writing letters to A. M.

With all the girls at school, why is it that J. P. has no girl? And this also goes for J. M. B.

H. B. thinks that she is slick, but the SCALP saw her in a black Chevy.

That is why J. A. Jr. gave her the axe.

There is a certain somebody socializing with the young girls at school—and after, and I don't think the students (BOYS) like it!

How do you figure that J. P. is trying to take M. B. from J. A. Jr.?

Is it true that J. P.'s car attracted D. C.?

I was told that when W. N. came home he had K. P. any time he wanted to. What's the haps C. B.?

**Christmas Play Given By Lincoln 8th Grade**

By PENNY EDWARDS

The eighth grade under the direction of Mrs. P. H. Belcher prepared a short Christmas play for our chapel Program December 13, entitled "Music Fills the Air." The characters were: Rebecca, A girl of Bethlehem—Faye Jones; Abraham, A boy of Bethlehem—Cubie Bragg; Shepherds — Lacy Reeves, Larry Wudem, William Smith; Wise Men—Donald Mason, Victor Jones, Eugene Lyons; Angels—Edna Minor, Nancy Edwards, Barbara Farro and Ada Mitchell and Narrator—Penny Edwards.

**—FACTS—**

(Continued From Page 1)

body, but most often the lungs.

2. Tuberculosis is caused by a germ so small that it cannot be seen with the human eye, without the help of the microscope. We come in contact with the germ and if our bodies are not strong enough to overcome it, it finds its way into the lungs where it begins to grow and destroy the lungs.

3. We should have a chest x-ray every year because early tuberculosis usually gives no warning—you don't feel sick. After a person has had tuberculosis for some time, he may begin to feel sick and to notice signs or symptoms. He may lose weight. He may be tired all of the time, have a fever or sweat at night. He will catch cold easily. He will have a cough without a cold.

4. Tuberculosis can be cured if we find it early enough. Until recent years the best cure was plenty of fresh air and an abundance of rest and nourishing foods. In recent years, though, some of the "wonder" drugs have been used with encouraging results. Among these we find Streptomycin. The cure for tuberculosis is most often a long drawn-out process. Treatment usually takes six months and may take a year or more. But even though we have no easy road to health the prayer of many centuries has been answered. Tuberculosis can be cured. Today we know that tuberculosis can be beaten—fewer people die from it every year. Yet it is estimated that one-half a million Americans have tuberculosis. One hundred every day—nearly forty thousand a year. Almost all these people could live by finding tuberculosis early and treating it correctly. Isn't a complete cure worth a few short years of your life?

In order to aid the recovery of tuberculosis patients and to avoid their spreading the disease, we find sanitariums. These are hospitals used especially for treating these diseased people. Many are state-owned and may be attended by state residents without charge. Others are privately owned and the patients pay for the services.

5. After a person has been cured and officially released from a hospital, he faces the problem of learning to live again among his friends and his family. It will not be a difficult so we must do all that we can to make him happy and feel that we are happy to have him home.

In closing let us remember, there is much we can do to keep tuberculosis away:

1. Keep in good general health. Eat a balanced diet. Get enough exercise and enough rest and sleep. If you are healthy you're safer from tuberculosis than if you let yourself get too tired or fail to eat right.
2. Get a chest x-ray—and a physical check-up every year.
3. If you want to know more about tuberculosis or if you would like to get a chest x-ray—see your doctor, your public health department or your tuberculosis association.
4. By buying and using Christmas Seals.

**—'Round 'Bout Lincoln—**

Hello Dear School Chumps!

Are you wondering why I use the same salutation? Well, Sam thinks it is appropriate.

M. L. Foushee, can't you decide between J. Merritt and W. Cureton?

H. Foster, what happened to you and B. Jones? We have observed the change from you to S. Bynum.

S. Doles, who was left in the cold, M. Farrington or T. Hackney? I'm very confused.

J. Atwater Jr., why don't you decide who you want—? Are you trying to be another Valentino?

N. Burnette, what gives, old boy? You can't seem to keep a girl for love nor money.

C. Farrington, I see that you have stopped your nightly rounds with — and —. How long will that last now that W. Nunn is in England?

S. Merritt, what is wrong with "Teenage Boys" of Lincoln?

Congratulations, G. McNair and H. Jones! Now you aren't alone, R. Bynum!

O Mason, is it that you don't like boys? You'd better change your actions!

V. Clarke, why don't you get help? Leave R. Norwood alone— Can't you see that he isn't interested?

C. Foster, we would like to see you leave with the class of '59. So take it easy, YOUNGBLOOD!

H. Harriston — It seems as though you would start devoting some of your times to studies if you wish to graduate with the class of '59. Nothing hangs out on the street ALL the time, not even the clothesline!

Will this young love last between W. Cureton and L. Suitz? Same hopes not.

E. Minor, you are really fluctuated, aren't you? From G. Parrish to R. Stroud and all over again.

J. M. Bynum, I see that you're trying to heed the advice I gave you in my last column. D. Alston seems to be good JAIL-BAIT for you.

By the way, what's wrong with that Jr. class? Fellows, you seem to be a little more manageable than the girls. Can't you do anything with them?

Sam and I have to sign out for now, but don't forget that we have our eyes on you. So be good, be careful and be true.

**JUNIOR CLASS NEWS**

By CHARLEY MAE FOSTER

Here we are, starting again fresh and ready to pull through another year of hard work. We, the Junior Class are proud to present to you our sponsors who will help us and our officers who will represent us.

They are as follows: Sponsors, Mrs. M. G. Frazier and Mrs. C. F. Davis; President, Major Geert; Vice President, Sheriff Allen; Secretary, Charley Mae Foster; Asst. Secretary, Eleanor Guthrie; Treasurer, Braxton Foushee; Sergeant-at-Arms, Willie Williams; and Reporter, Faye Brooks.

Class Colors are Sky Blue and Pink. Class Flowers, Carnation. Class Motto: "We know what we are but know not what we may be."

We would like to welcome our new faculty members to our campus and hope they will enjoy their stay here. They are Misses R. M. Reese and E. P. Basnight.

We have lined up for your enjoyment various types of activities. The class has already sponsored many socials for the benefit of raising money for the class treasure. They were all successful.

This year the Junior Class will present a play that will bring forth any dramatic talent that we may have as well as absorb the expenditures of our annually Prom (Junior-Senior Prom), therefore, we are anticipating your support.

The Juniors would like to congratulate the football team as a whole for its hard work in the games that they have played and won successfully.

~~Collective we feel that any eddict together; we will stand; divided, we fall.~~

**A NOTE**

Merry Christmas to Johnnie Raye Davis from the students of Lincoln High School. We hope you a speedy recovery.
