Mon. thru Sun. from 1330 to 1400

FIELD DIARY

TUESDAY, March 30. This is a funny kind of diary. If I try to print so much for each day of the week I don't have enough room to get it all in the space allotted to me. When Ye Editor says 500 words - that's th at. The best I can think of to do is skip days. Thus, dere diary, this we ek is officially starting on Tues- day - and I'll bet my last month's salary (mythical sum) that I'll have to leave out another day before I reach Friday night. Trouble with me is that I always use five words where one would do. I don't know whether that is a sign of genius, or just that I talk too much.Frien ds tell me that my winter in an Ar- my office has given me the health- ful glow of a corpse - so, in order to impress the folks at home with the rugged outdoor life I have been leading, I hereby resolve to take my exercises faithfully and expose my classic features to the direct rays of the sun for at least one hour ev ery day (pending cancellation of my furlough if my C.O. figures out the signature at the end of this column.

WEDNESDAY, March 31. Payday. YIPPE EEEEEEEEEEE!!!

THURSDAY, APRIL 1st. Gas Alert and April Fool's day. What a combination Our little brown friends in Tokyo and the nassy 'nasis aren't fooling Neither are we!! Bet it's cold in Chicago today - but, boy, is it hot here. This must be where that old saying about March coming in like a lion and going out like a lamb orig inated. Up north, bigawd, March com es in like a lion and goes out the same way.These new G.I. haircuts have their points. We are beginning to find out what our fel- low soldiers look like as they em- erge from the English sheep-dog of fects. This morning when I woke up I thought I was in the wrong barr- acks - I didn't recognize anybody. Yop - you guessed it - everybody'd gone G.I.

FRIDAY, April 2nd. Today I learned how to find hot water to shave with on these mornings when the fireman mysteriously disappears and both faucets give out with liquid ice. It seems the boys on the African desert front can't make fires in the morn- ing because the snake would give a- way their positions. Still they like to shave with hot water, so they drain some from a truck radiator. It is a little rusty but they don't in- tend to drink it - and when they are through with it they pour it back into the radiator, none the worse for a bit of soap. Leave it to the G.I. boys to figure out something like that!!!

WGBR

NEWS ABOUT

A Column of news and late hap- penings of Seymour Johnson Field is now being carried daily by the Gold sboro, News-Argus. The Column is prepared by the Public Relations Of fice, this station.

JIVE LEADER

ERSKINE HAWKINS and his orchestra

Erskin Hawkins, "The twentieth century Gabriel" will feature his trumpet for the soldier boys of this field. The show will also feature Jimmy Mitchell and Avery Parrish who will cut the ropes to sing out in real "Harlem Style" at the Sports Arena, Tuesday .

LATEST STYLES FOR NURSES

A bevy of gorgeous flightingales from Station Hospital presented for the benefit of their gorgeous dis- tress a brilliant fashion show on Th- ursday evening, April 1, in their own plush room located in that be- hive of activity, the Nurse's Recre- ation Hall. Rifty and natty, the girls really outdid themselves.

"Our purpose in whipping up th- is thing", explained the producers, Lts. Crane and Preston, "is twofold. First we are eager to match the dash- ing splendor of our brother Offi- cers. Secretly, they confided to us they are working on a scheme where- by each and every nurse on Seymour Johnson Field will take part in an elaborate tribute to the G.I. for their's about to institute a "Be kind to you local Quartermaster" week.

Top-notch on Thursday's pro- gram was Miss Hazel York who created a great stir as she modeled a breath taking outfit, especially designed for walking to Club formal on rainy nights. Miss York was nothing short of a super-drooper in her mid-shaft length gown of drab plaid, all cloth wrap and dainty green limb - tride, for puddle jumping.

THE BOOK WORM

Students here at Johnson Field are not satisfied to be just "good" Mechanics, from the way that they eat up the literature on Airplane Mechanics and allied subjects our pilots don't have a thing to worry about so far as the care of their planes are concerned

The Library has a wide selection of books written on Aeronautics and subjects connected with it; Radio Sheet- Metal, Engines, Instruments etc.

Drop into the Post Library and get a little extra knowledge. Don't be satisfied to absorb just enough to "get by". If you are going to be a Mechanic, be the best.

A tea for all service men's wives and newcomers to Goldsboro is planned for Sunday April 18 by the senior hostesses of the U.S.O. Club in Goldsboro. The tea will be held in the Servicemen's Lounge of the St. Paul Methodist Church on Chest- nut street from 4 until 6 p.m.

"Seymour Johnson Varieties", title of a new Radio program, was given over the Tobacco Network last Monday evening from 7:30 to 8 o'el- ock. The program consisted of the Post Dance Orchestra playing "Sent For You Yesterday And Here you Come Today"; "Daybreak". by Pvt Andy

Kirk; a reading "What makes the Army Click", by Sgt. Wm. Hamstead; a comedy skit, "Playing the Bones", by Pvt Glen Kachera, Pvt Ed Wolf and Pvt Art Flatts; a violin trio with Sgt. Khoury, Pvt Andrews and Sgt. Coffeen; "Back Bay Shuffle", by Orchestra; and "Invictus", sung by Pvt Millard Wyatt. Announcement for the show was Pvt. Johnny Grant. The program was prepared by the Radio Division of the Special Services Section.
