## UNDERCLASSMEN WANT TO KNOW:

If Mr. Floyd really is as comical as chapel indicated.

The funny Mrs. Boyette cracked.

If Mrs. Peele really yodeled in French class.

If Mrs. Avery, by leaving, took mercy on last year's sophomore class.

If Mrs. Peele's college French teacher told her to drop French because she could never learn the language.

Why seniors are so snobbish.

If Mr. Payne really extends graphs from the blackboard to the wall and near the ceiling.

Don't you wonder how coming generations will solve the solutions this one thinks up?
