SUMMER READING PROJECT PLANNED

By Nannie C. Holding
Wake Forest Woman's Club

The Fine Arts Department of the Wake Forest Woman's Club has decided to make available to students from the 9th. grade through High School and up to 2 years beyond, books designed for self-improvement in a single field. A year ago the local Library Board granted permission for the Fine Arts Department to place in the library, books for student use only, on a loan-to-the-library basis. This undertaking was delayed for lack of a sufficient number of books. However, with only a small number of books with which to work, it has been decided to make the initial experiment this summer.

One of the purposes of the experiment is to determine how many students on their own initiative are sufficiently interested in their future, to spend some of their summer leisure in learning the basic fundamentals of informative conversation. This is not a contest and no prize will be given at the end of summer for those who have used the books.

In return for the use of our books, we hope that each student who has seriously studied them, and found them beneficial, will be willing to fill out a questionnaire prepared to ascertain the value of our experiment, and to guide us in deciding whether to continue or discontinue The Students Book Shelf next summer.

Because of the small number of books which we have on conversation and allied subjects, no one student will be loaned more than one book at the time, and that particular book will be limited to a 7 day loan. Later, if that particular book is not in use, it can be re-borrowed. If when returning one title, and there are other books of that same title or different titles on the shelf, the student can secure an immediate additional loan.

Wake County Citizens' Council

A Part of The Only Nation wide Organization Dedicated to Preserving the Integrity of the White Race!

P.O. Box 2222 - Raleigh, North Carolina 27602

Dear Neighbor:

We are presently faced with three serious attacks from the NAACP and other pressure groups. These are:

- (1) School Integration
- (2) Mass Voting by Negroes as a bloc.
- (3) Residential Integration

The most serious threat at the present time is "Total Integration" of schools, including the teachers. We do not know how soon this will come upon us, but we know that the Federal Government will not be satisfied until it has ruined all public schools in the South as it ruined the schools of the District of Columbia. Conditions are worse in Washington under "Total Integration" than they ever were in either the White or the Negro schools prior to integration.

To determine how our citizens in Wake County would react to a positive program under responsible leadership to meet these threats, a house to house survey is now in progress.

Neighborhood groups are being appointed to conduct this survey.

We are sure you realize the urgency of this situation, and when one of your neighbors calls, you will give the few minutes needed.

The neighbor who will call on you is giving time for the best interest of our community. Your courtesy and cooperation will be appreciated.

Sincerely,
(Signed) Lewis W. Purdy
Pres., Wake County Citizens' Council

In order to speed up the survey, we decided to publish the above letter and questionnaire. It will help us considerably if you will fill it out and mail it to the address given below. A contribution toward the cost of conducting this survey will also be appreciated.

Freedom of Choice Survey

- (1) Do you have children or grandchildren in school? YES ()
- (2) If your answer to (1) is YES, do you prefer racially separate schools for your children or grandchildren? ()
- (3) Are you willing and able to pay \$300 to \$400 per year tuition per child to send your children to a good Private School? () How many children and which grades? ()
- (4) If you have no children or grandchildren in school, would you support morally and through the Citizens' Council other relatives and neighbors whose children are the target of the integrationists ()
- (5) Would you be interested in cooperating with the organization of a private school under sound local leadership? ()
- (6) Will you make a contribution, large or small, toward the building of a private school? ()
- (7) Are you a registered voter? () In which precinct? ()
- (8) If not, will you register now? ()
- (9) Whenever parents send a child to a private school the State saves about \$240.00, which was the average cost per pupil to the State for public education last year. Do you think the State should pay this amount to these parents as a tuition grant, as provided for in the "Pearsall Plan"? ()
- (10) Are you a member of the Citizens' Council? ()
- (11) If not, will you now accept an invitation to membership? ()
