Captain Grand Stewart, who hails from Toledo, Ohio, has just completed 30 years' of Service with Armed Forces. He has been living and contributing part of one of the most progressive and revolutionary periods in American History. After the Armstice was signed Stewart was sent to establish an ROTC unit at A. and I. College in Nashville. Tennessee. He served as an instructor in Mapping and Automatic arms at The ROTC units in Camp Custer, Michigan, and in many other phases of army life, in 1825 Capt. Stewart entered the National Guard as a first lieutenant assigned to Company "H" of the 372nd Infantry. His service continued with this company until 1941. He then was made Regimental Munitons Officer and has remained in that position until the present time.

PACKAGED AIRPORTS

PACKAGED AIRPORTS
WASHINGTON - Complete airport equipment, with the exception of runways, will be offered in pack age form after the war. Present intentions are to offer four different packages that will have equipment developed and used on Army and Navy routes during the present war. These packaged airports will offer equipment varying from that needed for small feeder airports to that needed by airports planned to service passengers and cargo in communities of 50,000.

Stressing the importance of "well-planned research." Dr. Beale, who is head of the North Carolina College chemistry department, cited three recent scientific discoveries to prove the value of planned research. The three discoveries histed as "laboratory preparation of urea, sulfanilimide, and progesterone in pregnancy urine". In referring to recent claims advanced by Army physicians to explain the so-called superiority in vision that Negroes are said to have over other races, Beale said this point should challenge Negroctors and dentists to determine other physiological differences in Negroes.

doctors and dentists to determine other physiological differences in Negroes.

He recommended a three-point program to the Academy: appointment of a research director, cooperation of the members by supplying information. Su, sections, and time, and provision for publication of the research completed.

Dr. Beale is a graduate of West Virginia State College and received the Ph. D. degree and received the Ph. D. degree at Pennsyl avania State College in 1942. His dissertation, which was published under the suspices of the American Chemical Society, is entitled. "The Permanganate Titration of Thallous Saits" and "The Determination of Bismuth by Caffeine Tetralodobismuthate III."

Judge of the City Court

The Friends of Paul F. Smith take pleasure in advocating his election as Judge of the City Court of Raleigh for these reasons:

Mr. Smith is qualified by training and experience for this office

He was educated in the public schools of his native City of Raleigh, at the University of North Carolina and at Wake Forest College Law School. He came to the Bor in Raleigh in 1920 and has since practiced his profession here. In his 25 years at the Bor he has attained high standing as a lawyer, and his experience and background fully qualify him for the position of Judge of the City Court.

Mr. Smith is qualified by his high character and integrity for this office

He has been a citizen of Raleigh all his life. His character and integrity are well known to the people of this City. His concept of justice would assure fair and impartial administration of the business of the Court with

Ir. Smith is qualified by his patriotic desire to serve our City in his important position

He served overseas in the first World War as an officer in the Army of the United States. He is willing now, as he was willing then, to serve again in a position of vital importance for which he is completely qualified.

Ir. Smith's Election Will Bring to the City Court of Raleig's That Public Confidence Which Is So Necessary for The Administ Stion of Justice
