PERON GOES TO JAIL

Latin America's Bilbo — fallen dictator Juan Domingo Peron of Argentins — has been placed by the aroused citizens of white Argentina ir jail where he belongs.

Peron, who hated Negroes, is in jail in Argentina. Laval who hated Jews is dressed up in a towsack and manacled by his legs to a cell in Paris until the day cemes when a firing squad of the French people takes him out and shoots him like any other mad dog.

to a cell in Paris until the day cernies when a mining equate or the French people takes him out and shoots him like any other mad dog.

Some day, too, the people of Dixic will deal out the judgment of History — what it will be I can't say — to Bilbo who hates both Negroes and Jews.

For it is judgment day all over the world for those who would array man against man. A new day has dawned in France, is dawning in Argentina, and will down in Dixie. All over the world," Henry Wallace has said in a speech as great as Lincoln's Gettysburg Address, "the commor people are on the march." They ask not the color of those who march with them.

The new day in Argentina is being brought about by the common people — the colored peoples and the white people of Latin America. They've put Peron in jail and now Peron won't be able to realize his dream of building a lily-white empire by enslaving the Negro-Indian peoples of Latin America. He got nowhere on all of this as Bilbo will get nowhere in his scheme of "deporting" all Negroesin the United States to Africa.

AUTHOR FIRST EXPOSED PERON

This columnist is modestly proud that we were the first to call the attention of the Negro people in the United States to the danger for all the oclored peoples of the Latin America represented by Peron. Through the Argentine democratic underground, we were sent a copy of Peron's secret mmorandum for was on Negroid Brazil and were the first to publish it through the American Negro press in English.

Since that time, we've published column after column of revolations showing the further plans of Peron to start World War III by a race war against Negrota — as Hitter started World War III with his race war against Jews.

But the colored peoples of Brazil and the rest of Latin America were getting ready to take care of Peron if Argentina's white people didn't. The great Negro leaders of Latin America's long liberation struggles against Spain had Jealth with men like him before. And the Perons generally ended up in the graveyard.

BRAZIL'S NECROES WIN DEMOCRACY

With Peron producing arms a mile a minute to attack Brazil which he acornfully denounced as a "n—"" nation, the Brazilian people got busy. Taking a lesson from France which failed to clean out men like Laval before the Nazis marched across her border, the Brazilians cleaned out of their government many a man who was holding secret negotions with the hly-white ruling clique of Argentina. Then they held great popular demonstrations which forced their authoritarian president, Getulio Vargas, to restore civil liberties and freedom of the press in Brazil.

Once the colored majority of Brazil had won a neasure of democracy, Peron could no longer held back the white majority of neighboring Argentina. The white people of Argentina are, in the main, not bilboes. In this case, as other white Latin Americans had done in the past, they took courage from their Negro brothers and threw out those who would shed that common r

I'm not at liberty to say too much about it. But I happen to know that several important conferences of Latin American Negro leaders were held while Peron was riding on top of the were. I'm not at liberty to say too much about it. But I happen to know that several important conferences of Latin American Negro leaders were held while Peron was riding on top or the ways.

The minute that Peron's troops would have crossed the Brazilian border, an inter-American Negro committee for the defense of Brazil would have sprung into action. Negroes throughout Latin America and the United States would have been established to give donations of money, food, and clothing to the black men and the white men who would have been fighting against the enalswament of Negroes and Indians throughout our hemisphere.

Negro longshoremen in the various countries of the Americas would have been urged not to load shipments of arms and other supplied for Argentina. Negro doctors and nurses of this country would have been invited to join the Brazilian medical corps.

I can tell you, too, that these Negro leaders considered very seriously the relation of men like Bilbo and Rankin in this country to what might be war between Argentina and Brazil.

They know that Bilbo, Rankin, and others like them would side openly, or furtively with Peron. They knew that some of them would start hollering that Peron was fighting for "white supremacy and ought to be left alone to "teach them — to a lesson"—ven though he would have been fighting with an alway trained by German Nazi officers and with munitions supplied by German Nazi o
