U.S. Jury To Hear FBI Facts On Georgia Lynchings

MACON, Ga. (ANP) — Evidence gathered by the FBI on the lynching of two Negro couples near Monroe, Ga., last July 25, will be presented to a federal grand jury at Athens around December 2.

Revelations here Monday by U. S. Atty. John P. Cowart that the lynching facts gathered in a 90-day FBI investigation will be presented to a Middle Georgia Division grand jury come almost simultaneously with U. S. Atty. Gen. Tom C. Clark's announcement in New York that 2,500 witnesses had been questioned by the FBI since President Truman personally ordered a federal probe of the quadruple killings and that he had oredred a federal grand jury hearing to sift the evidence.

Clark's disclosures came in reply to remarks by Oliver Harrington, NAACP official, during the opening session of the New York Herald Tribune's 75th annual forum at the Waldorf-Astoria. Harrington charged that when most Americans say "justice" they "mean justice for whites only."

"For the crime of race hate and lynching, there has never been a conviction in the history of the United States," he said, pointing out that the department of justice tracked down every foreign spy during the war but was unable to find a single clue to the criminals responsible for the wholesale vandalism against the Negro community of Columbia, Tenn.

"An agency committed to defending the lives of its citizens should spend less time finding legal reasons for not acting and more time acting on behlf of human justice," he declared.

Clark challenged Harrington's remarks by citing the achievements of his office in prosecuting and investigating cases involving personal liberties under his leadership 16 months ago. He then revealed that he had ordered federal jury action on the evidence gathered by FBI agents in the Monroe, Ga., lynching.

Indictments against British imperialism came from representatives of Africa and India with the forum being informed that West Africans now are struggling to raise the wages of unskilled laborers to 20 cents a day.

JOHNNIE'S desire to tinker with doorbells, radios, electric irons—may be the first expression of an inborn talent. A capacity for earning that should be encouraged.

Much progress has been made in integration of Negro workers in crafts and trades, and today there are more than 3,300 electricians. High wages and protective security more than compensate for time spent studying new techniques and obtaining professional efficiency.

Every year, thousands of potentially successful men and women are forced to quit school because an unexpected emergency may necessitate their supplementing the income of a widowed mother. Accumulated savings, intended for education and training, are quickly wiped out . . . and another bright boy or girl must turn to the low-pay "traditional" jobs.

Tragic? Yes, but it can be prevented by insuring the future now. Your N. C. Mutual underwriter will gladly show you how.
