BODY VOTES FOR CHURCH MERGER

Delegates attending a special call session of the Congregational Christian Church held at Cleveland last week voted 710 to 300 in favor of unionization with the Evangelical Reformed Church, the Rev. E. C. Lawrence, pastor of the First Congregational Church, revealed their this week.

The Rev. Mr. Lawrence, who attended the conference as one of the delegates from North Carolina, stated that the better than two to one vote for the merger was preceded by considerable heated discussion.

Following last week's action by the Congregationalists, the merger now depends upon action to be taken by the general conference of the Evangelical Reformed Church.

N. C. delegates who attended the conference in addition to the Rev. Mr. Lawrence were the Rev. J. T. Stanley of Greensboro, superintendent of Congregational Christian Churches in the southeast; the Rev. R. M. Clegg and Mrs. Sarah Clegg.

The Congregational-Evangelical merger was first discussed by the Congregational general conference during its general session held last

Mr. White's letter, dated February 1, charges that the Federal Housing Administration, despite a Supreme Court decision invalidating judicial enforcement of restrictive covenants, "has continued to lend its full support to the perpetuation of ghettos." The charges are documented in Mr. Marshall's memorandum.

POLICY REVISION URGED

Recommendations submitted to the President urged:

1. Revision to the FHA Underwriting Manual to "exclude all considerations predicated upon racial, religious or national distinctions for the purpose of making commitments for insurance under the National Housing Act."

2. "Rejection of mortgage insurance on property in which the applicant for insurance has inserted a restrictive covenant based upon race, religion or national origin."

3. Withholding of approval for insurance of projects proposed for exclusive occupancy by a particular racial, religious or national group.

4. Suspension of mortgage insurance on projects which, after approved, invoke restrictive covenants or regulations in deed of sale or lease.

5. Instruction of all FHA field offices and representatives of the new policy set forth in the above recommendation.

THE POLICY UNLAWFUL
Mr. Marshall's memorandum charges that supporting documentation for that, i.e., FHA support of residential segregation is contrary to the public policy of the United States as evidenced by the decisions of the U. S. Supreme Court last May prohibiting judicial enforcement of

racial covenants and by the report of the President's Commission on Civil Rights.

2. The FHA policy of conditioning mortgage insurance for unrestricted housing upon approval by the local real estate market is in violation of the Fifth Amendment.

3. It is unlawful for the FHA to approve projects for insurance where it is aware that such projects will contain racial restrictive covenants.

It further holds that the full integration of minority groups into American life is an essential part of the nation's housing program. The object of the National Housing Act, the Marshall memorandum maintains, is to improve the housing conditions of the nation and not to insure the security of lending institutions and the profits of providers.

MIXED HOUSING BANNED

Citing an instance in which the

FHA had refused mortgage insurance for the development of a project for mixed occupancy, the memorandum accuses the agency of withholding its "normal protection and benefits" from Negroes seeking to escape the ghetto while contending that it is not authorized to withdraw such benefits from persons who contract with their neighbors to discriminate against Negroes.
