THE VET ASKS...

Q — I am a World War II veteran. Is my wife eligible for treatment at a VA hospital?

A — Not unless your wife is an ex-servicewoman. Dependents of veterans are not entitled to hospitalization under the VA.

Q — I want to give the beneficiary of my NSLI the right of choosing, in the event of my death, either a lump settlement or any of the available monthly payment plans. If I designate no option, will she have this right?

A — No. Payment in a lump sum may be designated only by the insured. However, if you provide for lump sum payment, she may have her choice of available plans.

Q — The automobile furnished me by VA was totally wrecked in an unavoidable accident. Will VA give me another one?

A — There is no provision under the law to provide more than one automobile to an eligible veteran.

Q — Must a disabled veteran go to a vocational school or may he go to a liberal arts college, a high school, or similar institution under the Vocational Rehabilitation Act?

A — He may enroll in any VA approved educational institution or training establishment offering the course of training which Veterans Administration has found desirable. It must be in line with his own desires.

PHILADELPHIA, Pa. — According to reports received by the Association for Negroes in American Industry with headquarters here, the status of the industrial worker in the South is becoming increasingly significant as a result of more integration on skilled levels.

The South is known to have been attracting many manufacturing concerns to many of its states, and has met with remarkable success in luring some of the major industrial corporations to open up outlets throughout many sections.

What is considered to be most significant is the fact that the industrial skills obtained by Negro workers during the war, as well as the fact that extensive organizing campaigns have been instituted by major unions, have made for considerably more job opportunities in Dixie, Association leaders advise.

Assets of American agriculture totaled about 130 billion dollars at the beginning of 1949, according to preliminary estimates based on commodity price data through December 15 and dollar land value thru November 1.
