REASONS GIVEN FOR OPPOSITION TO AREA SCHOOL

WASHINGTON (ANP) — A special committee of the Conference of Presidents of Negro Land Grant colleges recently presented the conference's analysis of their opposition to the segregated regional school plan for the south. The analysis appeared in the winter issue of the Journal of Negro Education, a Howard University publication, edited by Dr. Charles H. Thompson.

Child D. "Why Negroes are Opposed to Segregated Schools," the editorial comment pointed out the opposition came from the four basic reasons:

- 1. "They are convinced that equal educational opportunity cannot be afforded for Negroes under the theory of separate but equal, and that they refuse to cooperate in any plan which is so patently and inherently discriminatory in its very conception, and thus violating the constitutional mandate that Negroes must be given equal educational opportunity."
2. "Negroes are convinced by recent events and the present climate of public opinion that segregated graduate and professional work in the south is unnecessary and constitutes a backward step in the educational progress of the south."
3. "Negroes have concluded that even if separate but equal educational opportunity were at all possible in theory, it would be definitely uneconomical and actually unobtainable in practice."
4. "Empirical evidence obtained during the past 10 years has convinced Negroes that the old cliché, 'separate but equal' is concerned as far as the education of Negroes is concerned. The extension of grossly inferior graduate and professional work, and particularly at the expense of the undergraduate program is unjustified, so much so that no segregated graduate and professional work for the time being is better than what is contemplated."

The average net income from farming per person on farms was \$716 in 1948, or six per cent more than the 1947 average.

URGES JIMCROW BAN FOR NEW LABOR BILL

WASHINGTON — An amendment to the new labor bill, banning denial of employment because of race under any closed shop agreement, was urged today by Clarence Mitchell, NAACP labor secretary, in a statement submitted to the Senate Committee on Labor and Public Welfare now holding hearings on the bill.

In his statement, Mr. Mitchell recalled that the National Association for the Advancement of Colored People had opposed enactment of the Taft-Hartley Labor Act and reaffirmed the Association's position in requesting repeal of that law. Any new statute, he asserted, must include provisions to safeguard the rights of persons who are excluded from union membership because of race.

Mr. Mitchell submitted a series of four recommendations to provide such safeguards. He asked (1) that the National Labor Relations Board deny certification to any labor organization which denies full membership rights or privileges to, or which segregates or otherwise discriminates against, any employee because of race, religion, color, national origin or ancestry; (2) that provision be made for new hearings in cases where, subsequent to certification, a labor organization discriminates on racial grounds; (3) that no employer be required to bargain collectively with a labor organization which is ineligible for certification because of discrimination; and (4) that no person be discharged or denied employment because of lack of membership in, or failure to pay dues to, a labor organization which denies him membership or otherwise discriminates against him.

"In making these suggestions," Mr. Mitchell concluded, "we wish to assert our belief that strong democratic trade unions are indispensable to freedom in our society."

RIGHTS BILL IN INDIANA HOUSE

INDIANAPOLIS (ANP) — Reps. Jane Ann Noble of Kokomo, Ind., and Judson Haggerty, Indianapolis, both white democrats of the Indiana General assembly, introduced a bill in the Indiana House of Representatives prohibiting hotels, restaurants, and business places from barring any customer because of race, creed or color.

The bill carries a forfeit of \$300 to the person discriminated against and makes the violator liable to fines up to \$500 and imprisonment of 30 days.

Of all methods devised for the extension of personality, the letter is the oldest and most effective.

THE MORAL: DON'T SMOKE IN BED!!

Smoking in bed is one of the more prolific causes of fire — particularly fire which results in serious personal injury and loss of life. Those who have the habit would do well to read a list of "Instructions to Guests Preparing to Smoke in Bed" which has been posted in the rooms of a New York hotel. It says:

- 1. Call the office and notify the management where you wish your remains sent.
2. Notify guests in adjoining rooms of your intention of endangering their lives, so that they may take necessary precautions to protect themselves.
3. Go to the corridor and locate the nearest fire escape, so that if you are fortunate enough to escape your room, you may reach safety.
4. Now sit down and think how foolish it is for you to take this risk — you may enjoy your smoke while thinking it over.

"Business may be good, but we do not have guests to burn, so please — Help Us to Protect You." These words cover a lethally serious problem. And what is true of hotels is equally true of the home. Remember these rules next time you feel like smoking in bed.

Quarrels are what love is made of.
