## PEACE IN THE WORLD

We need a world of peace and hope where discrimination is not allowed.

A happy world a peaceful world where people and nations walk side by side.

This is the world I like to see. A world without crime and unfair acts.

Thus is the way it was meant to be. This is the way we should face the world.

We as a nation should defend our rights.

We should walk together and be victorious.

Defeat the evils that lurk in the night.

For this is the way it was meant to be.

Life is more than being alive. It is the heart and vision of a man.

To enjoy life, to know about life and to strive and to do the best you can.

You know I've often wondered why people seek an education. They go to school and then to colleges.

It must be wonderful sensation that education is so good. Unless you put it to work. If you don't apply your education, you end up being a jerk.

The best material to use to control fire mold is a combination of a fungicide and a bactericide. The fungicide should be applied to the soil and the bactericide to the plants. This will help to control the mold and prevent it from spreading.

## \$500 BOND IS SET IN STORE ROBBERY

RALEIGH — Joseph Frazier, 23, year-old son of 329 East State St. was caught by local detectives in Wilford Saunders Store shortly after he had broken in late Sunday night. He was charged with breaking and entering and larceny and receiving.

Young Frazier is being held under a \$500 bond.

Investigation officers said Frazier had in his possession \$4.26 in cash and five packages of cigarettes, which belonged to the store. They stated that he attempted to hide the store's counter when they entered the store to investigate.

His subject was "The Requirements for Christian Living." The speaker had a very appreciative audience, consisting of many of the parents in the community, his former school mates, classmates and friends. In the audience was the mother and father of his brother.

After the sermon Mr. Obey informed his audience that he was thankful that the community of his birth had permitted him to conduct his first full service. He assured the people that their presence would mean a great deal to him as he continued his preparation for the ministry.

In addition to scholastic duties of the visiting minister, he acts as and he feels that this experience will serve as the source of great practical experience that will be so much needed in his future work as the servant of the people.

## A DEFINITION

According to Mr. Webster "Life is the state of being alive." Now, I'm not one to contradict. But this statement has expired.

Life is more than being alive. It is the heart and vision of a man.

To enjoy life, to know about life and to strive and to do the best you can.

You know I've often wondered why people seek an education. They go to school and then to colleges.

It must be wonderful sensation that education is so good. Unless you put it to work. If you don't apply your education, you end up being a jerk.
