CALLS FOR NON-BIAS IN FEDERAL EDUCATION BILL

WASHINGTON — The National Association for the Advancement of Colored People will press for a Federal Education Bill. It was announced this week following a meeting in the Senate of the Lodge anti-segregation movement by a vote of 63 to 16.

Memphis, Tenn. (R. N. D.) introduced another amendment at the request of the NAACP. This amendment would authorize the United States Commissioner of Education to audit for funds under the act. It would also authorize him upon complaint of aggrieved citizens to withhold funds from states failing to disburse federal funds in accordance with the law.

The rejected amendment, offered by Senator Henry Cabot Lodge (R. Mass.), would have required states to "provide that public elementary and public secondary schools admit all qualified pupils without regard to race, color, creed or national origin" in order to be eligible for federal aid.

Leah Perry of the NAACP, Washington Bureau, asserted that passage of Federal Aid to Education legislation without the Lodge amendment would "put the federal government in the position of continuing present racial discrimination because the act would not give any state the right to refuse to accept federal money if it does not accept the Lodge amendment."

The present epidemic of racial prejudice in the South is the work of the State Government and not the Federal Government as the NAACP charges. It is behind the anti-segregation plant, nationalistic and Communist. It is behind the State Federation of Unlawful

NAACP HITS LACK OF ACTION BY N.Y. FEPC TO END BIAS

NEW YORK — Charging the State Commission Against Discrimination with inaction and delay in the enforcement of the law, the National Association for the Advancement of Colored People today asserted that serious doubt is being cast upon the machinery of the Commission for the settlement of discrimination cases.

In a letter to Commissioner E. W. Richards, NAACP Assistant Social Council Marian Wynn Perry, cited the three-year delay in settling the case of a Negro stevedore who was refused employment as a radio operator on the S. S. "Victory" on April 26, 1946, because the officers of the ship would not set with a Negro. A complaint filed with SCAD on April 30, 1946, and amended on July 7, 1947, has not yet been satisfactorily settled despite the fact that SCAD found "probable cause" for the complaint almost a year ago, Mrs. Perry stated.

She said the Commission's functioning is limited by the number of complaints filed before it. Mrs. Perry wrote Commissioner Perry, "the unreasonable delay in the handling of complaints will necessarily result in a loss of confidence in the Commission's effectiveness."

Referring to the practice of picketing ships refusing to employ Negroes, a device used before the establishment of SCAD, Mrs. Perry declared that further delay by the Commission would leave "no alternative but to request the cooperation of the Union in settling discrimination cases by the aid of picketing which were proved effective in the case of the adoption of the law which you administered."

Anderson, Ind. (AP) — Heads of 38 inter-racial organizations in Anderson, Ind., were surprised last week at the withdrawal of the city FEPC ordinance by Councilman A. R. Baggett on the charge that he was not the author of the ordinance and had introduced the bill only as a favor to certain individuals.

Especially for Captain Joe Wee Reese — still the greatest shortstop in the game today.

There are also a lot of loud boos for the opposition and a doubtful decision of the ump. But that's all for that game. There are many more to come—154 in all for the major leagues.

SO we hash over the future—the chances for the pennant to come home and roost in Dodgerville. "Dem Bums" are optimistic. They always are—so are their fans. The majority of the 112 baseball writers who cover the major leagues favor the "Flock" to win. And along Ebbets Field and Flatbush Avenue—the same opinion—"Dem Bums got the flag in the bag."
