## Inventions That Serve You

**CHARLES F. KETTERING**  
Inventor of Self-starter

THANKS to Charles F. Kettering women are no longer dependent on male muscle to start the car when they wish to go motoring. It was Kettering who invented the self-starter. Before then it frequently happened that auto-owners, seeking her careful grooming and her temper in using to start the car herself. Kettering was the gallant knight who settled that problem for all women for all time. Today she merely presses her foot against a small pedal or presses a button with her finger.
