VOTE FOR BETTER

FOR YOURSELF AND YOUR CHILDREN

It Is Not Political

When you vote for better roads in North Carolina you help vote yourself and your children a better state. Better roads mean more accessible markets for your products, new residential developments where an acre can be bought for the cost of a lot, better school bus roads enabling schools to remain open during bad weather, longer life and less repairs for your cars and trucks, many smoother and nearer routes to your destination and a network of road arteries that will attract commerce, thereby increasing jobs and living standards.

Folks, it is one of the main answers to a continued good North Carolina economy. Your economy. Yes, we will have to pay for them. But it is better to pay a little more taxes and have poorer markets; dilapidated homes, weather and have poorer markets; dilapidated homes, weather beaten, rutty roads that close schools in bad weather, robbing our children of their training; and \$200,000,000 will give a lot of jobs for quite a long time in itself.

Don't let anybody confuse you about the issue as it is not political.

Here's what Governor Scott said recently: "This is not a political issue. This is a citizen's movement to develop a greater North Carolina. It affects every group of people in the State. We are working together to develop a greater North Carolina—the future of our State is at stake."

Better Roads and Schools Mean Better Living
