BY CLARENCE H. HUNTER

FRIENDSHIP

On the front page this week we are carrying a picture of four young white ladies and one young Negro lady who are attending the Western Hemisphere Encampment of Girl Guides and Girl Scouts now meeting in Manistee National Forest near Muskegon, Michigan.

The purpose of the encampment is to find ways of carrying out on a large scale the theme of the encampment: "Friendship Builds a Better World."

Of this encampment Miss Constance Sawyer, a Negro high school student from Topeka, Kansas, said: "This meeting will do a great deal to bring about better international relations, because each of us gets to know girls of other countries, to understand their customs, and to develop a feeling of harmony which we can take back to our own communities."

I agree wholeheartedly with this statement. Like Miss Sawyer, I believe that one of the major reasons for the wide breach between the races is simply that of not knowing enough about each other. It seems to me that this encampment proves that there is no discrimination in the minds of young people. The discrimination is in the minds of the adults who teach and preach it so much in the home that the children adopt it just to keep in the good graces of their par-

ent. If children of different races were allowed to play and study together more in the South (without the supervision of prejudiced parents, of course) there would be a different story to record in the next twenty-five years. I maintain that if the adults who raised the Negro section of Groveland, Florida, recently and the group who participated in the bombing of a Negro home in Chicago last week, had been able to have participated in encampments similar to that of the Girl Scouts, these incidents would never have happened. They would have understood what it is like to have to work for starvation wages and what it is to be denied the opportunity to live in a certain neighborhood simply because of your color.

White Americans see and read about Negroes having to live in segregated ghettos, having to attend inferior schools, having to travel under jim-crow accommodations and having to work for wages oftentimes far below a decent standard of living, but they don't really understand these conditions until they have the actual experience themselves.

If these experiences come early in one's life, they make a greater and longer lasting impression on him. Then the possibilities that the individual will work during his life

to eliminate the bars of racial and religious discrimination are greater. If the leaders of this country mean anything when they say that discrimination has to be abolished if we are to remain the leading nation in the world, then they had better devote some of the funds now going to all sorts of investigations to interracial encampments so that we can learn more of each other.

The only way we can get to know and understand members of various races is to work and study with them. This cannot be accomplished in a dual system of education as we have here in North Carolina. It cannot be accomplished as long as the Girl and Boy Scouts have to work in segregated setups. We - people of different races and religions - are able to live, work and study together in the spirit of the Girl Scout Encampment in Michigan. In this way we learn to discuss racial problems openly, as well as establish lasting friendships. In this way we learn to admire the virtues of any group while possessing an awareness of its faults.

Each summer a great number of our teachers go to northeastern and northwestern colleges and universities for graduate study. These students attend classes with people of all nationalities. They are exposed to any number of cultures and profit greatly from such contacts. These experiences are retained and integrated into their work with their own students in southern classrooms. The result is that they are able to mold the lives of the youth they teach and at the same time break down the barriers of racial discrimination.

If whites and Negroes do this with the sincere purpose of teaching the duties and obligations of people living in a democracy, such as we are striving for here in this country, then their education in the schools will not have been in vain.

STORY HOUR - Pictured above is a group of youngsters in attendance at the regular Tuesday story hour at the Richard B. Harrison Library in Raleigh. As this

photo was taken Mrs. Helen Duffy, acting children's librarian, was telling the group the story of "Aladdin and His Lamp" from the Arabian Nights. Even though

the reading contest which was conducted for the future men and women is over, the regular story hour will continue.

club meeting. These surprises were made possible by five generous firms in the city.

CIRCUS THEME

During the entire period the children's library room took on a festive appearance. On the bulletin board was a large circus tent with the names of each member listed. As they made satisfactory book reports, stars were added to their names. Toy singing birds and large balloons hung in the middle of the room. Living the tops of the shelves were wooden circus animals and a regular circus panorama in progress. Displayed around the room were books describing the activities of the "Big Top."

Throughout the summer children were given circus bookmarks. During the last week of the contest, such was given book-shaped tags which read "I read at the Harrison Public Library."

One interesting feature of the entire program was that the children, through their enthusiasm, brought their parents to the library also, therefore the program stimulated adult as well as juvenile reading interests.

WINNERS

Ernest Ratliff, of Betty O'Kelly School won first place by reading and reporting on more books than any other student in Raleigh and Wake County. Pauline Wynn, Lucille Hunter School read the largest number in the city schools. Beth Carnegie placed second and Shirley Hagan, third both from Lucille Hunter School.

Lucille Hunter Elementary School students led the city in reading the largest number of books. St. Monica's School had the largest number of children registered in the contest. Although the contest has ended, story hour will be continued throughout August each Tuesday afternoon at two o'clock. Mrs. Helen Duffy, acting children's librarian, has been in charge of the summer program.

XAVIER GRAD SET TO ENTER GEORGETOWN

WASHINGTON (AP) - Among the first Negro students accepted for entrance into the law school of Georgetown University is Harry Alexander, a June 1949 graduate of Xavier University in New Orleans.

As one of Xavier's most outstanding students, Alexander was awarded the Dr. Percy Ceneget award and the Frederick Walker Shea award for student activities on a national level. He was regional chairman of the National Student Association, New Orleans area, and active in the National Federation of Catholic College students.

NMA AUXILIARY IN ANNUAL MEET

DETROIT (AP) - Women from all parts of the nation converged on Detroit last week for the annual convention of the Woman's Auxiliary to the National Medical Association.

Main event of the meeting was the panel discussion theme, "The

ourselves in our own community." Among the persons participating in the panel were: Dr. Roscoe C. Brown, U. S. Health Service substituting for Mrs. T. C. Henderson of Chicago; Mrs. J. A. C. Eastburn, Louisville, Ky.; Theodore O. Walker, Jr., Cincinnati and Mrs. U. Bailey, Chicago.

Among the new features of the convention was a visual exhibit presented by Mrs. J. B. Matthews, Port Arthur, Tex. and Mrs. J. A. Graham, Detroit, to chairman.

Here's Blessed Relief from RHEUMATIC ACES of NEURITIS

If you have tried various things without getting satisfying results from the nerve-racking aches and pains of rheumatism, commonly known as neuritis, when caused by a deficiency of the B Vitamins, then listen!

You owe it to yourself to try HADACOL. Yes, HADACOL, which supplies the elements your system may lack, could be the answer to your problem.

<p>From Gulpport, Miss. April, 1949</p>  <p>For the past fifteen years I was a comatose, suffering from Rheumatism. I am now on my seventh bottle of HADACOL and it has given me entire relief from the aches and pains. I am able to do a full day's work, something I have not been able to do in the past 15 years. I feel that the manufacturers of such a marvelous remedy should be complimented by appreciative people who have benefited from its use.</p> <p>—Mrs. Opal Jefferson</p>	<p>From DeQuincy, La. Feb., 1949</p>  <p>My mother suffered with Rheumatism for years and had tried everything without benefit. She started to take HADACOL and she improved rapidly. Then, my father, saw such improvement in her that he started the treatment. Now, thanks to HADACOL, they are both doing fine. All our praises to HADACOL and its founders.</p> <p>—Mrs. Diel Smith</p>
<p>From Ft. Wood, Ala. March, 1949</p>  <p>I am 75 years old and have suffered with Rheumatism. I started to take HADACOL, and since the second bottle I threw away my walking stick, and now I feel like a new man.</p> <p>—Mr. Calvin Moore</p>	<p>From Baguiste, La. Feb., 1949</p>  <p>I was suffering from Rheumatism, unable to do anything. Tried all kinds of medicine, part of the time in hospital. I started to take HADACOL. Now I can do any of my work and get done fine. I recommend it to everybody I meet.</p> <p>—Mr. John W. Carter</p>

IS HADACOL A MIRACLE FORMULA?

No. There is nothing miraculous about HADACOL, but sometimes the results people get from it are almost miraculous. Your doctor can tell you that a continual lack of the B Vitamins and certain Minerals in your system will cause bodily disorders such as diseased nerves, resulting in rheumatic aches and pains, commonly known as neuritis. When this deficiency disorder exists there is no known treatment - no medicine - that will bring you relief. Start taking HADACOL now. HADACOL contains no drugs, no oil, no narcotics - only Mother Nature's natural elements. Drugs and medicines play a relatively unimportant part in the treatment of any form of Rheumatism. They give only temporary relief and fail to remove the cause of the trouble.

HADACOL comes to you in liquid form, already dissolved so that it will be readily and easily absorbed into the blood stream. After you take HADACOL, a white, healthy and vigorous blood will surge through your whole body, bringing life to Mother Nature's B Vitamins and four of her important Minerals to your every muscle, to your nervous system, to all of your delicate bones and vital organs, thereby helping Mother Nature to replace or repair and to re-nourish the nerve cells and tissues that may be damaged or sickly as a result of the deficiency of the Vitamins and Minerals that HADACOL contains.

The people whose letters appear above are just a few of the thousands and thousands that HADACOL has already benefited. Medicines and treatments don't help them - what they really need was a supply of the Vitamins and Minerals contained in HADACOL. In fact, many persons who suffered, waited and hoped for a long time to be able to live happy, comfortable lives once again. This is because HADACOL remedies the source of the deficiency disease. Be fair to yourself. Temporary relief is not enough, so try HADACOL today! HADACOL is easy to take - pleasant to taste.

No matter where you live - no matter who you are - if you have tried all the medicines under the sun, give this wonderful preparation a trial. Don't get a substitute! Don't be miserable!

Get a bottle today from your drug store - HADACOL. Don't wait. To obtain may be dangerous. Redden your eyes and wear! Enjoy Life! Yes, to feel you have lost - use HADACOL. And it is convenient to carry with you at all times. Price only \$1.25. Large Family Size - \$5.00.

CHILDREN ENJOY READING CLUB

The Richard B. Harrison Public Library's department has just closed its Vacation Reading Club. The club proved to be one of the most successful projects which the library has sponsored. Any school child in the fourth grade through the eighth grades was eligible for membership. Over one hundred children joined.

Each child was given a miniature clown as a token of membership. As the child's reading progressed, and for each two books read, he was given a brightly colored dot to place on his clown suit. At the close of the contest, the person whose clown possessed the most dots was named the winner.

STORY HOUR

Once a week all the club members gathered at the library for stories and music appreciation. To stimulate further interest unique surprises awaited them at each

AMERICA AT PLAY

VACATION! They've picked time and place, and they've planned and saved for months.

That's the American way—the way of free choice—so familiar we take it for granted. A man picks his job, leaves it freely for a better one. He chooses the town he'll work in, the house where he'll live. He saves or spends as he wishes, with only his income and his wife to dictate to him.

It's not that way everywhere. In some countries the government puts a man in a city, a house, a job, with no choice in the matter. He can't quit, leave town or move around the corner without permission. If he gets a vacation, he is told where and when to go. The government runs everything, the people nothing.

That's what happens when a free people turn over their responsibilities to their government. They also turn over their freedom of choice. Socialism is the result. How does Socialism happen? Not overnight. It is woven slowly, a thread at a time, into the bonds of slavery. Little by little the government assumes powers other than governing—until it finally assumes all power.

In this country the government has already entered the electric light and power business—and is aiming at medicine, steel, railroads and other industries. Advocates of the plan refuse to call it socialism, but that is how socialism got its start in other countries. Call it anything you please—it is a threat to freedom!
