

Jeffreys School News

Mrs. Reid's first and second graders are doing an activity in science on the "Gifts of Nature." We started in the fall making trips to nearby wooded areas watching the changes in the leaves, and the trees in the Fall of the year.

We also collected rocks, acorns, wild flowers, moss, pine cones, pine needles and leaves.

The class called their collections the "Gifts of Nature." Our science table was started from the findings on our trips.

During the Winter many of us brought from home "Gifts of Nature", that could be found near such as cotton, corn, tobacco, nuts and many other things. We labeled each of our collections. The class has made charts.

On our trips we saw two kinds of birds. They were the Starling (or black bird) and Cardinal (or red bird). We have been told that the Cardinal is our State bird.

The class has planned other trips for the spring. We are still looking for the "Gifts of Nature."

Our class attendance is very good. Some of us are members of the Perfect Attendance Club.

Miss M. L. Blount, of St. Augustine's College, is doing her student teaching in our class room. We all love Miss Blount.

Mrs. Smith's sixth grade enjoyed studying "How Animals Solve Man" for the Science Fair. We studied animals from the following angles: animals that give us food; animals that give us clothing; animals that are used as pets; animals in the seven basic foods; foods that animals give us; and animals at home.

We wrote reports, made posters and friezes, on our sand table were shown.

Many of the members of our class are taking part in the operation "Sunny of Sunnyside".

The following members are still members of our Perfect Attendance Club: James Malone, Marie Jean Jackson, Minnie Ruth Webster, Otis Dunn and Jessie Mitchell.

Mrs. A. L. Harrison's 7th grade class is happy to report that:

Our project for the Science Fair was "Scientific Changes in Clothing." We were very happy to win a blue ribbon.

The honor roll for this period has been released. Our A honor roll is as follows: Mary V. Ray and Betty Sue Sutton; B honor roll: James T. Dozier, Pauline Walker, Eunice Justice, Bettie Hunter, Geraldine Blodson, and Arthur Bunch.

The P. T. A. held its regular meeting Monday night, with the President, Mr. Charlie King, presiding. The meeting opened with "Onward Christian Soldiers," followed by prayer. After the business meeting, a panel discussion was held on "How Can The Community Help the Teenager." This panel consisted of parents: Mrs. Amanda Young, Mr. Edward Chavis; 8th grade students: Martha Young, Joseph Fowler; teachers: Mrs. P. T. Harris and Mr. A. E. Moore. Mrs. P. M. Smith acted as the moderator. Each participant was very good. Our students on the panel were highly enjoyed. Remarks were made by the principal, Mr. M. Grant Bates. We

were happy to have the Rev. Perry and Rev. Debnam, Community Church pastor, present, along with other visiting friends.

Recently the 6th grade class, under the direction of Mrs. S. B. Sharper and Mr. Northington presented their assembly program, "Paddy's Potato", a 15 minute one act Irish play.

The characters were: Paddy Potato, Darlene Hayes, Shamrock Mavoreen, Norma Jean Horton, Blustery Breeze, Harvey Woods, Mad March Hare, Robert Robertson; Wee Jenny Wren, Flora Mae Johnson; Daffy dawn dilly, Jo Ann Valentine; Maene the Fay, Alma Jean Freeman; Last Leprechaun, James Otis Taylor; and St. Patrick's Drum, Odell Dunn.

Our class was happy to receive a certificate and blue ribbon on the unit, How to Purify Water, that was presented by the class during the Science Fair which was held at our school recently.

Since you last heard from us we have exhibited the planets that we made in our Science Fair. We are happy to report that we received a Red ribbon for second place.

Friday, March 22, will be an exciting day for us. We are going to give our chapel program, "Welcome to Springtime." Although we will be two days late officially, we are planning to send "King Winter" away for a few months rest.

The characters in our play are: King Winter, Theodore Carrington; Frost, Willie Pulley; Snow, James Chavis.

Hail, on the average, destroys more farm crops in North Carolina than any other violent weather phenomenon.

Frink High School News

LA GRANGE — Mrs. O. W. Frink, librarian, and Mary Lena Edwards, a student attended the fifth annual conference of the Association of The North Carolina High School Library Clubs at North Carolina College on March 16. The theme was: "It's Always Book Time."
