**Why Every Chatham Family Should Plant a Garden**

Every Chatham family should plant a garden, because they can get good fresh vegetables from the garden by planting their seeds a few weeks apart, and by canning and freezing their surplus vegetables.

Fresh vegetables, grown at home, taste better than those we buy from the store. By planting a garden at home we not only cut down the cost of living but growing children are able to get a better variety of vegetables, which is necessary for their growth.

We don't realize how much we spend a year by buying our food out of the store. Just think, almost one million dollars a year.

Every person in the family should own one tenth of an acre. These are some of the things we should have in our garden: Lettuce, tomatoes, cabbage, and carrots. So remember, always plant a garden.

The ministers of today have similar experiences. They are betrayed by those who seem to be close to them. A lot of times all the ministers have to go on is, the portion of the 19th verse which reads, All power is given unto me in heaven and in earth. It is not easy for the minister all the time, but God opens up new avenues. He has said, "I will be with you when I say with you you can walk through water and it won't hurt you. It won't burn, He has promised. To I am with you always, even unto the end of the world." Rev. Burson closed his message by saying, this service today will add ten years to the pastor's service.
