## "LUXURY" on wheels!

This long, low and lovely '57 Ford is a new kind of celebrity that's even prettier than her pictures!

And what a talented performance you get! There's Thunderbird V-8 "GO" for one thing. The kind that's proved itself at Bonneville, Utah—where it averaged over 108 mph for a grueling 50,000 miles. And you ride solid and sure in a new "Inner Ford" that puts your comfort first. The frame is wider. The body is beefier. The center of gravity is lower. Everything about this Ford is "box office" now. So, come in and get your low-priced ticket to a new kind of life.

Rest your eyes on this new kind of luxury by Ford. Slip into a whole new era of "Heraclite" fabrics and matching tailoring.

Look for this mark of distinction on the car ahead, the Ford. You'll see it at a glance. Ford's sculptured-in-steel styling is way out there!

You'll love to sit behind this wheel. It's smaller, yet lower for better driving position. And, of course, it's Liegegard-designed.
