\$25,000 Bail Sought For Pa. Man Caught With Marijuana

PHILADELPHIA (ANP) — Because of a mother's tip, police are holding her son in \$25,000 bail for action of the grand jury on a charge of unlawful possession of a huge cache of marijuana found in his apartment.

Captain Clarence J. Ferguson of the narcotics squad said the two and one half pounds of prepared marijuana taken by his detectives from the apartment of Carl Wells, 35, represented one of the largest hauls ever made in the city.

"The value of this stuff on the illegal market," Captain

Ferguson told Magistrate Samuel Clark, Jr., "is so large, about \$8600, that we are sure there is an organized gang supplying it. We have some clues and expect further arrests." Wells had been arrested two weeks ago as one of the 53 men taken into custody following a mass dope clean-up. He was charged with sale of marijuana and sent to Moyamensing Prison in default of \$15,000 bail.

At the time of his arrest, he gave the police an address which turned out to be the residence of his mother, Mrs. Margaret Thun-

er. She knew he had an apartment in the city somewhere and when she heard of his arrest went there. She found a large bag of marijuana and notified the police.

Ferguson said the narcotic was "good stuff, brought in from out of town." One of his squad men, John Roane, talked to Wells. The suspect told him, he said, he was "holding the bag for someone" but made no further identification.

Wells was arraigned on the additional charge of possession and returned to prison under a combined total of \$40,000 bail.

Haiti Headed For Military Rule

(ANP) — The unrest which has been troubling Haiti for the past six months appears to be heading for military control. For two weeks the country has been operating under a council of 13 members selected from followers of the seven or eight candidates for the presidency.

Thursday, three members of candidate Duvalier withdrew from the council, throwing the body into confusion.

Women dissatisfied with the general trend of affairs which have business more or less paralyzed, began demonstrating

Thursday in front of the governmental palace. Women are to receive full franchise this year according to the constitution.

No announcement has come from Brig. Gen. Leon Contant, head of the army, although the military body has been the sole organization keeping the peace and seeing that order prevails.

Many people fear that the army will shortly announce martial rule since the democratic process seems to have fallen down badly.

If you are not planning a spray program on your bunch grapes this year, as you should, you might try bagging them. This should be done as soon as the individual fruits are about the size of a garden pea. Use a paper bag large enough to contain the bunch when the fruit is ripe.

Slide the bag over the bunch and attach to the stems. This can be done with a pin. Fold the top so as to keep out as much water as possible and pin securely. Then, cut a tiny hole in one of the bottom corners of the bag to drain out water that may get in the top. This hole should be small so as to let the water drain from the bag and prevent insects from entering.

The honey bee has been blamed for destroying grapes on the vine when they are ripe. This is not true because the honey bee is only lapping, mouth parts which cannot break the skin of a grape

Police said Burnett denied the charges. The officers quoted him as saying, "My sister came here from Kansas City in February. She has been living with me. I don't know why she accused me of something like this. All I know is she had an argument with her boyfriend and got mad."
