ENTERTAIN VISITING AGRICULTURISTS — When a "rush" of professional agricultural workers visited Greensboro last week for Extension Agents' Training Conference and the

North Carolina Association of New Farmers of America Convention, both at A and T College, R. E. Jones entertained them at a reception. Chatting at the reception from left to right

Mrs. W. E. Reed, Mr. and Mrs. Jones, Miss M. H. LeGrand, Fayetteville, and Mrs. Margaret Wade, Nashville, Little Robert Jones, Jr., appears also interested.

B&P Women Map Plans For Annual Convention

NEW YORK CITY—(GLOBAL)—Mrs. Maud Harrison, National President of the Business and Professional Women, has just sent out a special announcement to all local units concerning the forthcoming Convention in Pittsburgh, Oc-

where the three-day session was one of the best in the history of the organization. Women reviewed the role of women in Volunteer Service at that time, and this year they will evaluate their role in the Crusade for Freedom with Mrs. Harrison at the top of the to-do list. Noteworthy about this dynamic National President whose Program of Service and organization with and for the B & P Women all over the country speaks for itself.

Atlanta Univ. Gets 140 G's From Estate

ATLANTA—(ANP)—Atlanta University has received a bequest of over \$140,000 from the estate of Mrs. Gertrude Ware Bunce, daughter of Edmund Aas Ware, first president of Atlanta University, 1869-1883, according to President Rufus E. Clement.

The money will become part of the Ware Fund which was established in memory of the Ware family in 1886. Prior to this recent addition the fund contained over \$71,000. Mrs. Bunce was not only the daughter of the school's founder and sister of Edward Twitchell Ware, the third president, 1907-1922, but was herself a teacher in the University. Trained as a kindergarten teacher, she joined the faculty of the normal department in 1904 and in 1912 instituted a department for the training of the first of its kind south of Washington for Negroes. In 1919 she directed the first commencement program, "The Open Door," which was subsequently repeated successfully many times as a money raising project for the University, first in the Atlanta City Auditorium, then in Savannah and in 1929-31 in New England and New York.

The Ware Fund is part of the general endowment of the University, the income being credited to the salary of the professor of sociology.

TOPS IN FARMING—When the North Carolina Association of New Farmers of America held its annual convention A and T College these two youths were

awarded top prizes in the year-round Supervised Farming Contest. F. C. Stallings, Jr., Raleigh, a representative of the Plant Food Institute, donor of

the Defense Bond Prizes, presents them to winner Richard Hill, right, Catawba, first prize as Richard Lowery, center, Kernersville, second prize winner looks on from center.

Hulan Jack Faces Race For Post

NEW YORK—(ANP)—Political observers predict that Hulan E. Jack will have to battle to win a second term as Manhattan Borough President. The exact position of the first Negro ever elected to a Board of Estimates Post will be determined more clearly within the next week when party designation deadlines are reached. Mr. Jack is virtually certain of the regular Tammany designation. However, Manhattan GOP Chairman Thomas J. Curran, whose nomination of Elmer E. Carter for the post in 1955 set the stage for election of a Negro, reportedly is considering supporting a white nominee this year.

An anti-Tammany coalition, headed by three noted district leaders, B. B. Blalock, Bert Stand and Herbert Bruce, is also reported to oppose the present incumbent. The Liberal party may hold the key to the situation. They ran the Rev. James Robinson against Mr. Jack in the last election. Mayor Robert F. Wagner, who will be backed by the Liberals for re-election, favors the Manhattan president.

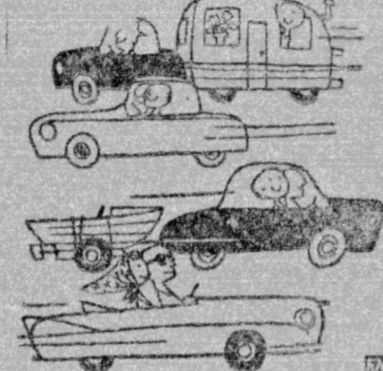

Announcement last week that Harlem Rep. Adam Clayton Powell will take "complete rest" for three months because of his health is a sidelight in the Jack situation. Even before Congressman Powell was stricken, it was reported he indicated he would not go along with any major Harlem opposition to the borough president.

The cost of going to college today is a heavy drain on the average family's resources. Inure aside regular sums in U. S. Savings Bonds.

Tips on Touring

By Carol Lane Women's Travel Authority Travel Survey

If you took a trip last year, you are a statistic — part of a survey taken by the AAA on vacation travel. Here are some of the facts and figures you probably figured in: One half of all America vacations at least once a year — spending some \$12 billion in the process.

Private automobile trips in the United States account for 85 percent of all travel within the country each year; 11.5 billion vehicle miles driven on vacations, and a \$10.4 billion expenditure.

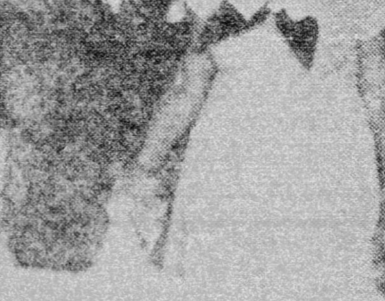

In half the states, travel is ranked among the three most important industries. It ranks first in Florida, New Jersey, Nevada and Washington, D.C.

Here is how the traveler spends his dollar: food, 28 cents; lodging, 22 cents; retail purchases, 20 cents; gasoline and oil, 19 cents; entertainment and recreation, 8 cents; tires, parts, repairs, 3 cents.

Of every 100 motorists on route, 83 stay in motels; 16 stay at hotels or resorts; 16 with friends or relatives; 4 camp out; and 1 lives in a house trailer.

The great upswing in travel is due to population rise, increased earning power, more leisure time, retirement plans, insurance and social security benefiting older citizens; and increased passenger car registration.

Loses A Watch To White Woman After 19 Years

AUGUSTA, Ga. (ANP)—A picture in a local newspaper here last week caused a Negro woman to lose a watch valued at \$1,500 that she had found 19 years ago.

It seems that the picture of the woman appeared in a recent issue of Augusta Chronicle Herald showing her feeding a pet. The photograph also showed an unusual type watch on her arm.

Police investigated and discovered that the woman in the picture had worked in the restaurant in 1938 and had found the watch. After a jeweler who had done work on the watch identified it, it was returned to Mrs. Kitchen.
