Aldens, Inc. increased both mail order and retail store sales during 1957 to \$13,500,000, the highest million dollar mark for the first time in company history. R. W. Jackson, president, disclosed in his annual report to stockholders.

Record sales and earnings during the past year climaxed ten years of increase at a rate of growth almost double that of the industry. Jackson pointed out, "Since the base years 1947-1949 Aldens sales have increased 75.5% as compared with an industry increase of only 14.9% according to the president's report. Increased customer service through "will-call" stores, where shoppers can order and receive merchandise, and telephone offices where customers can order for home delivery were cited as major reasons for the increase. Further service expansion by opening catalogue order units in supermarkets is planned for testing in 1957, Jackson said.
