The people to whom you entrust the last tender care of your loved ones MUST be capable, efficient and experienced.

The charges made for services rendered MUST be reasonable.

WE PLEAD GUILTY to all three of these requirements. If you have used our services... you know. If you haven't, ask one of your friends or neighbors who have.

ST. AUGUSTINE'S Campus Chatter

By NANCY RHICE

At last the books are open at St. Augustine's College again! You can tell that everyone is here for work by the midnight lights shining from the various room windows. On a room-to-room tour of the Sophomore girls' dormitory, I asked them what they thought of their various subjects.

The comments were varied. However, one young lady whose name I won't reveal had this to say: "They are a little rough; but with the effort I'm going to put forth, I'll make it O.K." A second young woman replied, "Tough!" Most of the girls are really putting their minds on their school work.

While striding across the campus last week, I spotted a couple feeding some squirrels. I walked over to them and asked why they were doing this. They answered, "We have no monkeys to feed peanuts to; so we were attracted to the bushy tails." Incidentally, speaking of squirrels—they really beautify the campus in an impressive sort of way. What person wouldn't like a campus like this.

The greatest, most wonderful and most exciting thing that has ever happened at St. Augustine's is the developing of that "Wonderful Football" team—yes, you're right, "the mighty, mighty Falcons." We don't fear any team! Why? With men like Charles Bolter, Willie Peppers, the co-captains, who would be afraid? That's what I heard one of the boys say.

Other players you will hear from are: James Pigzie, Donald Thompson, Mark Harvey, Aldean Moore, Joseph McNeil, A. C. Elfridge, Herbert Burrows, Marion Brown, Jessie Lucious, and Paul Russell.

Not satisfied with my own ratings, I asked some other people what did they think of the team—simply to try them out. They were "keen" on Reggie Alexander, Samuel Sanders, Linwood Sharpe, James Bridges, Namon Flournoy, Curtis Mears, Kenneth Davie and "Tiny".

Of course we'll miss the services of Napoleon "Pope Captain" Cloud of '56 and '57, Nat Smith, James Dawson, Adam Shaw, Marion Inman, Earl Richards, Leroy "Gator" Davis, and son Patton. However, we're fortunate to have men coming from every where to fill "spots" vacated by last year's veterans. Let's take our hats off to our team, coaches Walker and Clements. Oh yes! We must not forget our trainer, Sybellie "Blood" Cloud, and his assistants.

ONE FRESHMAN wanted to know what we do around St. Augustine's for amusement. Well "hatch" I look her to the Grill which is a "boss" place for "soothing" the nerves and relaxing the body. There we heard the latest live-rock platters; and as one of our great philosophers once said, "Man it's the ghost from the coast, and WOW, it's the MOST!" (Oh Yeah!)

Usually we have a good time at the Saturday night socials including the wall flowers and odd-dancers who do the strangest dances.

Most of the chatter these days is about football, espe-

Teacher Income Below Salaries Paid Other Groups

GKN TEACHER income 1-18 Ital. There is a glaring contrast between incomes of school teachers and the income of other groups who require the same amount of training according to the Fund for Advancement of Education.

In a bulletin entitled "Teachers for Tomorrow," the Fund measured the number of people in various professions who made more than \$10,000 a year.

It found that 41 per cent of all physicians and surgeons; 28.1 per cent of all lawyers; 24.6 per cent of all dentists; 18.1 per cent of architects and 10.3 per cent of authors, editors and reporters are in the over-\$10,000-a-year bracket.

As for teachers, only nine-tenths of one per cent attained that figure.

Recent tests of North Carolina soil showed that far less potash washed or leached from limed soils than from unlimed, acid soils.

Tar Heel farmers cooperating with 37 soil conservation districts last year drained more than 9,400 acres of land.

Good roughage is important to the economical production of milk. Water needs are expected to double in the U.S. by 1975.

Bears and the St. Augustine's Falcons on October 5. It should be a "battle to the death." Well, I'd like to leave you readers with this thought of the week: "When your neighbors stop smiling and their teeth no longer are seen, curve your lips from corner to corner and let them see yours are bright and clean. You'll find this contagious and you'll see teeth for a mile. Just remember this, dear readers, it's not any trouble to smile." (Emile)
