

Rev. A. T. Thompson Delivers Civil Rights Talk At Durham

DURHAM—One of the most interesting sermons ever delivered on

civil rights was given by Rev. A. T. Thompson, pastor, Community Baptist Church, here Sunday night when he was the guest speaker at Kyles Temple A.M.E. Zion Church. The Rev. Thompson chose for

a subject, "Certainty amidst Uncertainty." He told the audience that these were times when nothing was certain. "Negroes in America may wake up next year and find themselves on a reservation, due to the evil influences that would deny them their civil rights," said the Rev. "There is also a possibility that they would send us to Africa. The uncertainty of the civil rights of the Negro, here in America, that

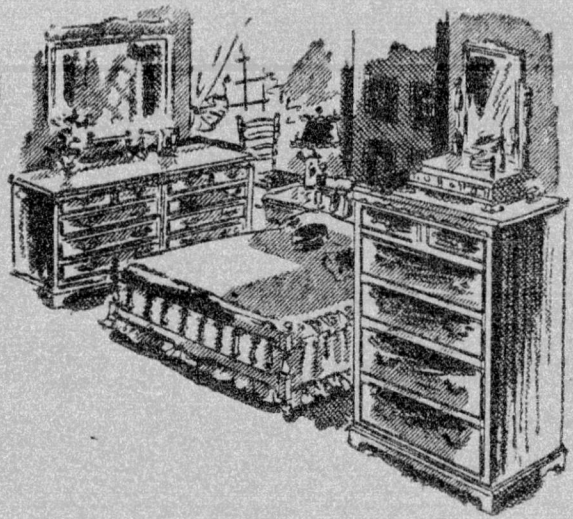

he helped, with blood and tears to build, is the concern of many," he continued.

He offered only one thing that was certain. The minister told his hearers that the hope of eternal life was the only thing certain, but he told the audience that the proper education to work for eternal life could and would work toward giving the Negro first class citizenship. The minister closed a week long special service, planned by the pastor, Rev. George T. Tharrington and the members of the church. He was accompanied by members of the Community Baptist Church. Music for the occasion was furnished by the senior choir and the male chorus of his church.

Hampton Lecture Attracts Largest Crowd Of Season

HAMPTON Va. — Samuel C. McGhee, Instructor in Plumbing and Heating at Hampton Institute, recently returned from Kakata, Liberia after serving two years as instructor at Booker T. Washington Vocational Institute there.

McGhee went to Liberia under the auspices of the International Corporation Administration Liberia Contract. His job was to teach plumbing techniques to natives sent from mission schools, to provide skilled labor needed for the gigantic development program starting there.

Besides teaching, he and the 23 other American technicians located at the school, aided in the construction on the campus. Courses at the school included 11 trade areas, home economics, agriculture, and secretarial science.

When asked to compare Liberia to Ghana, McGhee said unhesitatingly, "Ghana is far, far, ahead of Liberia industrially and culturally. I spent several days visiting the new republic and was very much impressed."

"In Liberia you are starting at rock bottom. Liberia depends completely upon European and American companies for development of their resources: lumber, iron, gold, diamonds, rubber, to mention a few."
