Race Problem Challenges Christianity

On Thanksgiving Day every man, woman, and child join the Nation in singing, "Come Ye Thankful People Come." The Thanksgiving spirit knows no race, color, or creed. In the words of Shakespeare, "It blesses him that gives and him that takes."

It is a good time to ask, too, if we are really the Christian nation we profess to be. Are we keeping faith with the creed of brotherhood given to the world by the Christ to Whom thanks will be given. Only during the last session of the United States Congress we saw the country divided over the question of civil rights that are guaranteed in our constitution. Hubert Humphrey, senator from Minnesota, once said, "This nation is nearly 200 years lete in making our guarantees of civil rights a reality. It is time that America stepped out of the shadows of state rights into the sunshine of human rights."

We should give thanks for the great blessings that are ours because we live in a rich country. But we wonder how many of us really approach the holiday with a spirit of humility and sincere gratitude? How many of us, sitting at tables loaded with the goodness that this country provides, will think of the other fellow,-the millions in the world who are hungry? How many of us will be really thankful that we are not being brought up in the ruins of war and stalked by hunger, disease and death?

We are thankful that the will of the people for peace is still strong among us, and that they are not going to be stampeded into another war against their will.

Bishop and Virginia Union were represented in the celebration of the 125th Anniversary of the founding of the great American Baptist Home Mission Society. It was a wondrous occasion with the cream of the speaking crop on hand to inspire great audiences.

It can be said in passing that with the declining benevolences for Negro education, the Home Mission Society now gives only token support to the schools it founded throughout the South.

All of these schools are hardpressed to survivee the rigorous demands made in the financing of modern education, according to approved standards. The task behind has been exacting! One of the serious aspects as projected by the convocation. was the grim necessity of keeping alive the private colleges that have made such great contributions to the leadership of today.

The AME Negroes have learned to hos their own row. The Negro Baptists have not so learned and this poses some serious problems.

The need for stronger financing of these colleges was convincingly set forth; but just how this nee is to be met was not made plain. This remains the unanswered ques-

tion and one that must be settled constructively if the Nsgro Baptist private college is to survive. The insistent call of these colleges is at present being met only in a casual way.
