

Two Youths Charged In Death Of One's Father

NORFOLK—(ANP)— This com- when police charged two juveniles with Norfolk's first homicide of 1958, one of the youngsters is the son of the victim.

The body of Alexander Boomer, 44-year-old Negro of 712 Southampton Ave., a short-sharman was found in the back seat of his 1956 car about 8 a.m. New Year's Day. The car was parked back of the Hunter Branch Y.M.C.A. on the old S.W. Vincent's Hospital grounds. There was a bullet wound in the victim's chest.

The man's son and his 15-year-old friend were charged with murder and robbery. The case was continued last week in juvenile and domestic court.

The following story was told to Municipal Detectives Sgt. J. W. Moran and L. J. Matlock:

Boomer's mother was watching television shortly after the beginning of the New Year when Boomer suggested going the city to celebrate. The 15-year-old friend went upstairs to get the gun, which was believed to be unloaded.

He was pretending to fire at

imaginary targets as he came downstairs. The gun went off. Boomer, who was standing in the back yard beside a dog house was struck in the chest by a single shot from the .22-calibre rifle.

Young Boomer told police, according to their report, that they took \$10 from the victim's pocket and went around back to get the dead man's car. They dragged him to the car and loaded the body in the back. The dragging wore a hole in the seat of the dead man's pants.

Then they drove two miles across town and abandoned the car and Mr. Boomer in it. They tried to get a bus home, but the driver wouldn't change a \$10 bill. They had to walk, arriving home after daylight.

They boys wrapped the gun in a paper and fastened it with twine. Then they dug a trench in a nearby lot and buried it. They then went home and resumed playing cards just as they were doing just before the tragedy the night before. The youngsters went to a lot of trouble but one of them explained it this way: "They were afraid and wanted to make it look like a robbery."

The Ku Klux Klan has been blocked in Virginia by a state law, but the White Citizens Councils, the Ku Klux Klan and other hate organizations are ready to resort to any scheme to discredit the Negro race as a means of blocking school desegregation.

The order also requires that the respondent abandon any requirements or references to any private membership organization as a condition of admission to the pool.

The complaint was registered by two adults and the parents of five minor children who were denied admission to the facilities of the swimming pool in July 1957 on the pretense that swimming facilities were available only to persons who had been accepted into membership in a private membership club operation.

The first of the several complainants sought admission to the pool on June 20, 1957, and the last on the group on July 21. In each instance, they were refused admittance on the grounds that they were not members of the "private club" and could not be admitted even temporarily until their applications were passed upon by a membership committee.
