#### ODDS & ENDS

CONTINUED FROM PAGE 1) noted, however, that the wording is specific, "Congress shall not acridge the right of people, peace-fully to assemble." It should go without saying that when people assemble loaded down with pistols, rifles, machine guns, knives, dynamite, and the paraphenalia of war, and eite their constitutional right of assembly, the law enforcement officers in the area of such assemblies must be informed of what the right to assembly entails.

The evil that ensued as a resuit of the "peaceful" assem-bly of Klansmen in Robeson County last Saturday night might well be repeated in Wake or in any other county. When the swerz and elected officers do nothing to prevent armed, lawless men from gathering—men who have pro-claimed from the roof tops that they intend to take the law into their own hands—innocent, peaceful and law-abiding citizens have no recourse but to provide protection for them-selves in whatever manner possible for them.

Neither the Robeson peace offieers or the State Highway Patrol can claim credit for preventing loss of life during the Maxton riot. It persons fail to re-purchase the prowas only because of the mercy of perty, it is then sold to whoever God that no one was killed there | might care to purchase it. It sounds

The Maston incident was racial-Indians, provoked by power-crazed, lawless white men. Usually it is the Negro who is the victim of this contemptuous disregard for law. But the sickening aspect of these racial disturbances is the fact that although the officers of the law know that these lawless, armed hondlums are planning these gatherings of law defiance, they take no stops to prevent them. INTRODUCING "UNCLE ABRA-

HAM": When the weather permits, that is, when the sun is shining down through the trees of Moore Square, you can see "Uncle Abraham" sitting on one of those concrete benches on the southside of the square, facing the City Market Unoie Abraham is likely to have on his coat and vest, a woven ermy shirt open at the coller through which the upper buttons of his heavy undershort can be

sumetimes he wears bine demin overalls over his cordsray pants; other days he may be seen snorting two pairs of pants. His bald head, with fringe of white cotton-like hair just above his ears, is covered by an old gray felt hat that has seen better days.

Uncle Abraham doesn't know how old he is. He knows he was born out near where Lassiter's Mill is now and that when he used to come to Raleigh as a teenage boy. Fayetteville Street was unpaved and there were street cars pulled by horses.

When you stop at Uncle Abraham's bench in the square, you will usually see him crumbling up some pieces of tobacce he has cut from his plug of "suncured". Pain- State Board of Education last fall stakingly he pulverizes these to-bocca pieces between the pairs of his knotted, but still strong hands. Then he stuffs this tobacco into old brier pipe. When the old man opens his mouth for his pipe, you can see that his mouth is almost toothless. There are two stumps of what were once long teeth in the front upper part of his mouth. The one lone tooth loks like a miniature tusk that age and use have whittled down to his bluish red gums.

Uncle Abraham says that he lives with "some of mah wife's felks" in South Raieigh, and that he is able to catch a ride from and to his place of abode almost every day. Uncle Abraham is something of a chatter box and often reals off a bit of homesoun philosophy that is both witty and practical.

\$14,600 VERSUS 3,000: The hews is that the Council of State has just approved a bill of \$14,500 for renovating a room in the Capital Building for the use of the Governor when he meets the press. According to a description the items used in fixing up this room, it must be one of the most lavishly furnished conference rooms in the country-even bordering on the side of waste. We will never condone waste when it concerns the tax payer's money, but when we hear about the rampage of spending in order for the Covernor to show the wealth of

A CHANCE FOR JOE LOUIS PARK: The word now is that the city planning director will again ask the City Council to approve a plan whereby the federal gov ernment and the city of Raleigh can jointly improve the nightmare known as Joe Louis Park. When the Urban Redevelopment idea for that area was presented to the council several months ago, one of the council members objected so strenguously to it that the whole thing was dropped like a hot po-tato. For some reason Mr. Hall beileves now that the council is ready to approve this plan.

Under the provisions of the Urban Redevelopment Act, "blighted" areas are condemned, the property owners are paid for their property, this property is then developed and brought up to conformity with existing standards and the property is then offered for sale to the original owners. If these like a pretty fair idea. We hope it een and will be carried out in Joe Louis Park,

Perhaps there is no other group half so poor and half so wasteful in the whole nation. We waste everything we can find to waste. We save nothing. We do not teach our children to save because we do not know what the word means. And our disgraceful habit of waste is one of the main reasons why we remain on the pauper level. The chances are we will continue to be paupers until we begin to learn the virtues of savings.

Franklin was noted for many things. He was a lawyer, printer, writer, scientist, statesman, ambarsader, leader and friend. It is quite likely that because of his great belief in and his constant practice of thrift, it was quite easy for him to accomplish so many things so well. We can and should begin to learn that regular and orderly saving can do for us, begin to put what we learn into practice and, above all, teach our children the merits of the outstanding qualities of thrift.
