

BENNETT MUSIC MAKERS—Members of the Bennett College instrumental ensemble, directed by Mrs. Jane Welch, are shown as they presented their first concert of the year, in the lounge of Reynolds Hall, Sunday night. Sharing the program with the instrumentalists—many of whom received their first instruction in October—were members of the freshman vocal ensemble, directed by Edward Lee. Guest artists were two music majors from Woman's College.

Six special features make this "New Romance" bra by Formfit one of the most comfortable and flattering designs yet devised. Of cotton broadcloth and satin elastic, it has Equalfit straps and circle-stitched cups.

One of the most comfortable bras we've seen has just been introduced by The Formfit Company, a firm long known for fitting the female form divinely. Their latest offering is called the "New Romance" bra, and it boasts no less than six special features to assure perfect fit, flattery and comfort for the wearer.

1. Equalfit supporting straps outline each cup for balanced uplift and definite separation.
2. Elastic under-arm sections fit smoothly without gaping or binding.
3. Flexible satin elastic band beneath the cup stays snug in place, yet "breathes" with you.
4. Lovely rounded contour is permanently circle-stitched into each cup.
5. Ladder-stitched cup sections give a smooth line under sweaters and dresses.
6. Elastic back-strap releases, push-lined for comfort, keep the bra from riding up in back and give freedom of movement.

In addition, they've succeeded in weaving all these fitting features into one band without sacrificing its eye appeal. Made of fine white cotton broadcloth, the "New Romance" bra is available in sizes 32 A to 40 C for \$2.50.

State College Hints

CHECK YOUR METHODS OF STORING FOODS—Is your milk covered, out of the light, stored at 40 degrees temperature? Is cheese wrapped in waxed paper or in plastic and kept cold? Is food with strong odor kept in tightly covered refrigerator container? Pot is an excellent cover.

Is fresh meat covered loosely, kept in the coldest part of the refrigerator, and used within a few days.

BEFORE YOU BEGIN TO IRON—Sprinkling can be easier if, before you begin to iron, you have at hand (1) an atomizer or (2) a vegetable brush dipped in a large pan of water and lightly shaken over clothes.

Keep a damp sponge handy for the dampened clothes that tend to dry out before you're ready to iron.

You can save much ironing time by carefully hanging flat wash on line for drying. Let the sun and breeze iron towels.

Fabrics with non-fast colors should be sprinkled just before ironing to minimize chances of runnings.

Never mix dampened clothing of non-fast colors.

COLD AND CLEAN—"Cold and Clean" add up to "no odor" says Nita Orr, extension home economist at N. C. State College. We don't even want good odors in the freezer, much less off-odors. She says you can keep them out easier than you can get them out.

To keep them out: Use highly moisture-proof resistant food containers and packaging materials, and close the packages and containers tight, and hold the temperature at zero degrees or below.

Farm land regularly used in the production of crops may be included in the "Soil Bank" Conservation Reserve.

\$11,000 In Scholarships To Be Given Frosh Entering A&T College

GREENSBORO—Statewide tests to determine winners of more than \$10,000 in scholarships, available to freshmen students to enter A and T College this fall, will be given at twenty-six locations, in late February and early March.

Leading the list of grants are four-year period, being given by the A and T College Alumni Association. Available for study in any field offered at the college, they will go to the four-students who make the highest scores on the standard college entrance test.

Other scholarships to be offered on the basis of high scores on the test include three-Smith-Douglass Scholarships of \$500 each, for study in Agriculture, given by a

Norfolk, Va., plant food manufacturer, available to high school

seniors, members of the New Farmers of America organization; eight-Sears Roebuck Scholarships of \$100 each, for study in Agriculture; two-Kroger Foundation Scholarships of \$200 each for study in Agriculture or Home Economics and several other smaller scholarships of \$87 each, being given by the college for study in any field offered here.

CP & L Observes Nat'l Electric Week In State

National Electrical Week February 9-15 has special significance for 22,000 farm youth of North Carolina; for during February eliminations will begin in the annual farm electrification contest. The competition is sponsored by Carolina Power and Light Company, Duke Power, Virginia Electric and Power and Nantahal Power and Light Company.

Eliminations will be completed by March 15 in the 55 FFA federations; by April 15 in the six districts; and by May 15 in the state contest. The state winner will be recognized at the annual meeting in June. Prizes in the contest total \$2,600.

Dan E. Stewart, head of CP&L area development department, explains that the contest trains youth "in the use of practical electricity in supervised farming programs on the farm and in the home."

"Research in the practical application of electric power to create a better way of life is a challenge to our young people," he said. "I can think of no other field which affords greater opportunity for service and discovery."

CP&L is one of a hundred companies and organizations in strengthening research science education during National Electrical Week.

Bruce Trio To A & T February 18

GREENSBORO—The Bruce Trio, two brothers and a sister, all of whom spent much of their younger lives in neighboring Gedalia, will appear in a musical recital here at A and T College on February 18. The concert is set for Harrison Auditorium beginning at 8:00 P. M.

This musical family, all of whom attended Palmer Memorial Institute, is now widely acclaimed as a group of distinguished musicians.

Carol Bruce, the sister contralto, was elevated to stardom by Serge Koussevitzky who had her sing at least 10-times with the Boston Symphony, which he directed.

Engene Bruce, a second member of the triumvirate, a graduate of the Juillard School of Music, is a bass soloist of outstanding ability. He has sung with the New York Concert Choir, the Interracial Fellowship and the DePaul Infantry Chorus and reached the peak as the lone member of his race to tour with the Robert Shaw Chorale on its trek through 21 countries in Europe and the Near East. He has also appeared on Broadway with "Showboat" and "Carmen Jones".

Jonathan Bruce, an accomplished pianist-accompanist, rounds out the trio.

The group is being presented as a featured attraction of the college's winter program.

"Self-employed farmers may use an alternate method for figuring their earnings from their farm," J. H. Ingle, district manager of the local Social Security Administration office and T. M. Langford, Group Supervisor of Internal Revenue, reminded farm operators today.

Langford pointed out that self-employed farmers may figure their earnings for social security in several ways.

(1) If your gross income from agricultural self-employment is not more than \$1800 you may count as your net farm earnings either your actual net or 2-3 of your farm gross income.

(2) If your gross farm income is more than \$1800 and your net farm earnings are less than \$1200, you may use either your actual net or \$1200.

(3) If your gross farm income is more than \$1800 and your net farm earnings are \$1200 or more, you must use the actual amount of your net earnings.

Langford added that use of the option will enable farmers with gross income as low as \$600 to obtain social security protection for themselves in their old age and for their survivors in case of death. However, he said that in order to receive any social security a farmer must be able to report at least \$400
