2 Teenagers Get Life Sentences For First Degree Death Of Man

DETROIT — (AP) — The criminal careers of the two 17-year-old northern youths came to a sad end last week in Recorder's Court when they were sentenced to life in Jackson Prison on the charges of first degree murder, following their conviction by a jury of the fatal shooting of a 32-year-old Woodward Avenue tobacco merchant last July 24 in an attempted bright holiday.

They are Alvin Shaw of 621 E. 1st and Curtis Curley, of 82 1st Philadelphia.

The victim of a gunshot wound the chest was Charles W. Fox, of 33 Wyoming, who was slain in a store at 832 Woodward Avenue.

Even their attorneys, who stood at their sides were speechless, and stood with their eyes turned toward the floor of the court.

"This is one of the most terrible crimes ever committed in the City of Detroit," asserted Judge Great, "this man didn't have a chance for his life."

Turning toward Shaw, Judge Great continued: "You are the

young man who did the killing." Shaw m uttered, "Yes your honor."

Judge Great advised the youths that the sentence for the crime which they had committed was mandatory under the laws of the State of Michigan.

"Therefore, it is the judgement of this court that you two spend the rest of your natural life in Southern Michigan Prison at Jackson.

With bowed heads, and an expression of dread on their faces, both Shaw and Curley said: "We have nothing to say."

President Of Esso Standard UNCF's Campaign Chairman

NEW YORK — Stanley C. Hope, president of Esso Standard Oil Co., has accepted the chairmanship of the United Negro College Fund's 15th annual nation-wide spring appeal, John D. Rockefeller, Jr., chairman of the organization's National Council, announced last week.

Mr. Hope, who is also a director and member of the executive committee of Esso Research and Engineering Company, will head the campaign to raise support for the Fund's 93 private member colleges. He will direct the work of volunteers in more than 120 campaign cities across the country.

leges meet current operating expenses. Last year's campaign raised a total of \$1,774,626, the largest in the history of the Fund.

The 93 Fund colleges represent a combined enrollment of more than 24,900 students. Among them are internationally known institutions such as Tuskegee, Hampton, Fisk and Atlanta University. The colleges are located in an area where 73 per cent of all college-age Negroes live.

The assumption of the chairmanship of the United Negro College Fund campaign is a reflection of Mr. Hope's interest in higher education. He is a member of the board of trustees of the Esso Education Foundation which provides financial assistance to privately supported colleges and universities. In 1957, he served as vice chairman of the College Fund's appeal.

Mr. Hope also has been active in promotion highway safety. He is responsible for the work reactivation and current work of the Esso Safety Foundation.

Mr. Hope is a resident of New York City.

State College Hints

SAFE FRYING PRACTICES — Watch the pan carefully when heating fat. Heat slowly. Never leave a kettle or pan of fat heating on the range unless you remain nearby. Remove pan from heat if it is necessary to leave the kitchen.

Keep pot holders handy and always use a holder to remove hot pans from the stove.

Keep pan handles turned inward rather than outward over edge of the stove.

Wipe up immediately any water or grease spilled on floor.

Do not add extremely cold or wet food to hot fat. Defrost frozen foods before frying.

Fire caused by overheated fat should be smothered. Do not use water.

MEASURING DO'S AND DON'TS — Do always use exact level measurements of baking powder. Be accurate!

Do not use a dry standard measuring spoon. Dip spoon to baking powder and fill it full. Then level it off lightly with the straight edge of a knife.

Don't guess at fractions. Use the small size of your set of measuring spoons.

Don't use a heaping teaspoon for a teaspoon. It may equal two or three level teaspoons!

Don't fill the spoon "about right" and shake off the excess. Level it off carefully.

Don't try to level off the spoon against the rounded edge of the pan. This gives an overmeasurement.

Measurements should always be for best results, be accurate regardless of what you are cooking.

Proper use of lights in the living house can increase egg production.

"Farm Problems To Be Solved By Common Man," NC Dairymen Told

GREENSBORO — "Problems facing North Carolina farmers will be solved if the real solution must and will come from a good management of dairy farmers were told last week.

The speaker was Dr. D. W. Colvard, dean of the School of Agriculture at State College, Raleigh. He was delivering the main address at the annual banquet of the 10th annual Dairy Short Course being held here this week at A and T College.

He said that many of the practices now employed in the state's agricultural industry could have been used years ago but they were not in the minds of the common man.

He challenged his audience by stating that the real solution must and will come from a good management and thinking on each and every farm in the state. "We are making a lot of progress," he continued, "and this is proved by the fact that farm income in North Carolina has moved from 20th place to spot number 20 among the states of this country in the past 10 years."

He said that while A and T College and State College have supplied a lot of information, the job was accomplished by the common man, "our farmers."

North Carolina had the lowest commercial butter price per pound in the United States last year.

Greensboro College Stages Mid-Winter Fashion Show

GREENSBORO — A fashion show marking the opening of the annual mid-winter exhibit was staged Friday by students of clothing at Bennett College, in the lobby of the David D. Jones Student Union.

The show, directed by Mrs. Louise G. West, with Miss Marlene Beaver, of Danville, Va., as guest model and assistant commentator, featured college styles, vacation clothes and creative designs.

An added feature of this year's show was the introduction of tiny-toe models from the college's Children's House, who modeled the latest fashions in clothing for small children.

Taking part in the show were: Misses Dolores Snellings of Raleigh; Minnie Stone, of Spring Hope; Millie Adams, of Princeton, W. Va.; Doris Best, of Goldsboro; Janie Graves, of Greensboro; Nannie Hughes, of Cheraw, S. C.; Dorothy Graves, of Gastonia; Barbara Freeman, of Lawrenceville, Va.; Theresa Kearney, of Greensboro; Arneese Woods of Darlington, S. C.; Mrs. Jeanette Harris, of Greensboro; Mrs. Young Tack Pack, of Greensboro; Misses Betty Jemison, of Milledgeville, Ga.; Louise Pitt-

man, of Charlotte; Richetta Bell, of Reidsville; Margerie Wilson, of Clinton, N. C.; Hee Sook Hong, of Seoul, Korea; LaVerne Hubbard, of Chatham, Va.; Edith Tucker, of Elkin, N. C.; Arnetta Fagan, of Plymouth, N. C.

Misses LaBita Waters, of Jacksonville, Florida; Gladys Hemingway, Georgetown, S. C.; Ruby Starks, of Troutman, N. C.; Elizabeth and Jacqueline Deasec of Wilmington, N. C. and Ance Faison of Dudley, N. C.

Child models were Millard Williams, Christine Crawford, Linda Gray, Evelyn Echola, Edith Bell, Donald Bailey, Vonessa Snipes, Debra Browning, Van Allen and Jean Simkins.

Among the articles on display on the mezzanine floor—in addition to the clothes worn by the models—were men's robes, sports attire, aprons, scarves, napkin sets, lounging apparel, baby clothes and women's hats.

Ill Woman Is Victim Of Rapist

DETROIT — (AP) — A 41-year-old, ill outside woman was slugged and raped Wednesday night while enroute to a neighborhood drug store to purchase medicine.

The woman whose name it withheld because of the nature of the assault told police that the rapist approached her at Clinton and

Orleans, shortly before 10 p. m.

"Why aren't you home?" he asked. The woman said the rapist slugged her in the mouth with his fists, pushed her to the ground and raped her.

She said the rapist, who was about 25 years of age, with a protruding mole on the right side of his neck, and an oblong shaped face, escaped into the darkness. The victim was treated at Receiving Hospital.

Crops used in a tobacco rotation should be resistant to all three groups of nematodes.

With proper management, many North Carolina cattlemen can have year-round grazing.

More than 80 per cent of North Carolina's poultry is moved outside the state.
