Dr. Charles A. Ray Speaker At FSTC's English Emphasis Day; Blasts Stupidity

PAYETTEVILLE — Delivering the English Emphasis Day address at the Fayetteville State Teachers College recently from the topic, "Books Are Intellectual Weapons Against Nothingness and Dep't Manipulators," Dr. Charles A. Ray, Director of the News Bureau at North Carolina College, warned the students against perpetuating the stupidity that "to be informed is to be a square peg in a round hole" and described the trend that to earn honor grades is equated with "being a square."

"Knowledge today," he insisted, "is a quality one can't afford to neglect, but some college students operate on the assumption that it's fashionable to be uninformed." He was introduced by John W. Parker, Chairman of the Area of English at the college.

Accompanying Dr. Ray was Dr. W. Edward Harrison, Chairman of the Department of English at North Carolina College at Durham. Dr. Ray's inspiration to study English stems from his contact as a student with the late Dr. Benjamin G. Brawley at Shaw University.

Director of the News Bureau at North Carolina College since 1956 and professor of English since 1955, Dr. Ray's experience in social work, in teaching, and in journalism has been extensive. For several years he did social work in Los Angeles, but returned in 1945 to continue his teaching career begun in North Carolina.

Dr. Ray holds membership in a number of educational and fraternal associations and is Vice President of the College Language Association. Recently he was honored as Man of the Year in public relations and was awarded a plaque for his outstanding work. Personnel of the Area of English includes Nannie T. Smith, Lois P. Turner, Mildred P. Jones, John W. Parker, and Minnette Scott.

Doctor Holds Up Hospital In His Crave For Narcotics

SAN ANTONIO, Tex. — (AP) — A prominent Negro physician, driven almost to desperation in his craving for narcotics, held up a night nurse and her companion at gun point while robbing the Good Samaritan hospital of 23 cubic centimeters of demerol drugs here recently.

Dones, 37, a downtown physician with offices in the Medical Arts building, confessed to the holdup and robbery following his arrest on a hunch by police was Dr. Henry C.

Added to the list of narcotics, the youthful medic invaded the hospital in the early morning hours. He was masked and brandished a revolver at the nurse, Mrs. Caltee Wallace, 27, whom he instructed to get him all the drugs she could find in the hospital. She screamed, awakening Mrs. Michael Starr owner of the place, who came rushing into the office. Dr. Dones terrorized her, too, and forced the two women to give him the demerol and other powerful drugs.

Dr. Dones was picked up because he fitted the description of a man who was arrested a few hours earlier in a car with a hypodermic needle on the seat beside him.

New Tax Methods For Farmers

Self-employed farmers may use an alternate method for figuring their earnings from their farm. Mr. Ernest F. Sitzpatrick, district manager of the local Social Security Administration office, and Mr. P. K. Sanders, District Director of Internal Revenue, reminded farm operators today.

Mr. Sanders pointed out that self-employed farmers may figure their earnings for social security in several ways.

(1) If your gross income from agricultural self-employment is not more than \$1800, you may count as your net farm earnings either your actual net or 2-3 of your farm gross income.

(2) If your gross farm income is more than \$1800, and your net farm earnings are less than \$1200 you may use either your actual net or \$1200.
