The text was Matt. 5:13-16, Acts. 19:2-4; I Thes. 5:4-8; and James 2:12-17. The lesson was reviewed by Master Wendell Wells. His remarks which followed were short and right to the point.
In this lesson of temperance, men are brought to face the church. The church basically speaking implies the people of God, the followers, or preservers of Christian faith, or the salt of the earth. Men are today told of the people of God are the salt of the earth. When the salt loses its savour it is good for nothing, but with its savour, it seasons and

APEX — The Adult Education Program was held at the Apex Public Library on Thursday evening, February 27 at 7:45.
In the absence of the president of the library committee, Mr. W. N. Dealey, the meeting was presided over by Mr. P. A. Williams, principal of the Apex Consolidated High School.
Rev. T. R. Cole, pastor of the Mt. Zion Baptist Church, Route 1, Apex, N. C. asked God's blessings for the meeting.
Mr. Williams introduced the guest speaker, Mr. Charles B. Robison, professor of social science at Shaw University, Raleigh, N. C.

Prof. Robison used as his subject, Negroes—Past and Present. He began his discussion by giving the background of many "trouble spots" throughout the world. One of the "trouble spots" mentioned by the speaker is Algeria in North Africa. The trouble that France caused there inevitably left a legacy of hatred.
Prof. Robison further stated that many countries have bowed out gracefully from the "trouble spots," but France has not. He stated that the speaker gave the background of the first Negro to come to America. It was about 1525 that Negroes were first introduced within the present limits of the United States. These were brought to a colony near what is now Jamestown, Va. In August, 1619, a Dutch vessel brought to Jamestown twenty Negroes, who were sold into servitude.
Prof. Robison related that the slaves worked for about 244 years in a building with very coarse food and poor clothing. He stated that as a result, instructions came on the scene, and that much homage should be paid to John Brown.
The speaker informed the group about other historical events as the Dred Scott Decision, the Kansas-Nebraska Bill, and the Missouri Compromise.

Prof. Robison named our three Negroes in Congress as Dicks of Michigan, Powell of New York and Dawson of Illinois.
The speaker vividly pointed out that many millions about 50,000 in the U. S. a number of them try to pass for white because of better financial conditions. Along with this thought he stated our great educator, Booker T. Washington, Washington, worked with the whites on friendly basis, so as to get accommodations for Negroes.
The discourse continued with the speaker stating that many Negroes migrated to the North for better opportunities.
In discussing the two parties, Republicans and Democrats, Prof. Robison stated that many Negroes became Republicans because of Abraham Lincoln, but he said many do not know that Lincoln's one thought was to "save the Union," regardless of what it took to do so. The speaker said that about 80 per cent of the Negroes in the North today are Democrats.
Prof. Robison brought the group up-to-date with the discussion of "New Negro." He stated that the decision handed down by the Supreme Court in 1954 is being defied in this world of ours in high offices of our country.
The speaker encouraged the people to read more and better books. He urged them to know what the Constitution and the Amendments say, and forcefully asked the people to subscribe to some magazines, papers, and books.
Prof. Robison stated that many pupils go into the colleges and can't read and write as they should. Many heads bowed in approval with the speaker when he pointed out that, "If we are going to compete in this world of ours we must do the maximum. Many are too satisfied with just getting by."
The speaker further related that every community needs ministers to live in them so as to give spiritual guidance, and that our children should be taught by us that it is not the color of the skin that counts, but what one knows.
He encouraged Negroes to buy their homes and beautify them and not sharecropping.
Prof. Robison closed his wonderful discussion with the idea that people should try to be more peaceful and love one another.
Prof. Annie Robinson, librarian of the Richard B. Harrison Bookmobile gave a response to the speaker and she and Mr. Williams gave their thanks to him.
During Prof. Robison's lecture, Mrs. E. H. Williams, photographed him, and at the close of the meeting she took a group picture of all who were present.
