

TAKE A LOOK AT **Tomorrow!**

If you could turn up the calendar and look into 1960 and beyond, what would you see for your town? Would you see there a neat, progressive, thriving community... a community of happy, prosperous people?

Of course, no one possesses this great power, but you can make a quick estimate of your town of the future by surveying present conditions around you. Do you know of a definite plan for progress in your town? Is there an active group working for continued improvements such as clean-up campaigns, improved municipal facilities, an adequate recreation program for young and old? How about all the other projects which help to make your town a more desirable place in which to work and live?

People in over 200 Finer Carolina towns have answered these questions since the start of the Finer Carolina Program six years ago. They can look to a better tomorrow.

You can provide a bright tomorrow for your children and your children's children by your own interest and enthusiasm. In any improvement program YOU are the important person. Lend your support... offer your leadership and you can look at tomorrow with confidence.

CAROLINA POWER & LIGHT COMPANY

This week's "Love Lorn Problem" is from a love-sick man, that could well be you, your brother, or yours truly.

Our friend, who signs his name as "Atlas", writes that "You will probably think I'm a nut, but I have a serious problem, and it's not funny to me. I need help."

"A year ago last August I married a girl I didn't care much about. I took her out a few times and admit I didn't use my head. We both drank too much, which was my downfall."

"When she told me she was in a family way I didn't know which way to turn. She made up my mind by threatening to take me to court. So I did the gentlemanly thing and married her. Eighteen months have passed and there is no sign of a baby."

"She keeps telling me her case is very unusual and her doctor has never seen anything like it in all of his years of medicine. She's gained fifteen pounds and has been wearing maternity dresses for over a year. What does this sound like to you?"

For an answer our columnist, Ann Landers comes up with, "This sounds wonderful, salesmanship with no product. Have a person-to-person visit with your wife's doctor and learn if there's a baby on the way, NOW."

"If there is, you may rest assured it's not the same baby she was talking about a year and a half ago. That child would be walking by now. There is such a thing as 'false pregnancy.' This condition is in the head. The victim of these delusions often experiences the physical symptoms of pregnancy—such as added weight and morning sickness. Your wife's doctor can tell you a great deal more about your wife's condition than I can."

SC Sheriff, 7 Deputies Are Freed

FLORENCE, S. C. — An all-white federal court jury found Horry County Sheriff John Henry and seven of his deputies innocent last Friday of beating prisoners.

The acquittal verdict was returned by the all-male jury after only 50 minutes of deliberation. The civil rights trial opened Monday of last week.

Six deputies named as defendants. The defense rested its case if Henry or Deputy Roy Huggins to the stand. The other Friday without calling Sherdants in the case testified during the five-day sessions.

The Horry County officers were accused by the government of depriving prisoners of their civil rights by mistreating them. Six deputies all told the same story—that the only "beating" administered to key government witness John Leonard Ford was an effort to quell him after he attacked them.

Ford was one of three Negroes testifying in the five-day trial that they had been man-handled by officers investigating an October, 1956, attack on Deputy J. D. Stanley.

Henry and the seven deputies are charged with individual violations of the civil rights of the three Negroes by beating plus a blanket charge of conspiracy to violate their civil rights.

The prosecution had originally charged that Huggins had also
