Sharecroppers' Fund Report Shows The Pitiful Condition Of Migrant Workers

NEW YORK CITY (AP) — Asserting that the government's farm program is inconsistent and works against itself, Miss Fay Bennett, executive secretary of the National Sharecroppers Fund, stated Monday that the "program of subsidizing bigness throws more and more small farmers off their land into city slums or into the migrant stream."

This charge highlighted the Fund's annual report on "The Condition of Farm Workers in 1957." The National Sharecroppers Fund is an organization which provides financial grants and public support for programs to raise the living standards of sharecroppers, tenant farmers and other under-paid farm workers. Its chairman is Dr. Frank P. Graham.

The report asserts that "a freeze or floor serves to underscore the fact that most farm worker families are so low on the economic scale that few have reserves to meet emergencies."

Quoting from the Miami Daily News on the early-winter floods and cold wave, the report says: "Whole families are forced to live in the open. Many are making homes in cardboard and any other kind of makeshift stacks in the woods."

The report describes prevailing living conditions of migratory workers, Negroes, Mexicans and other nationals, and asserts that "even in northern states (housing) sometimes consists of abandoned barns, chicken coops and dilapidated shacks. Men, women and children are often herded into one room."

Sam Cooke, Lavern Baker And Clyde McPhatter All Have One Thing In Common—Once Sang Spirituals

Sam Cooke, Lavern Baker and Clyde McPhatter are a trio who were former gospel singers before they started coining the big money in the pop and rock 'n' roll field. Sharing the same spotlight as stars of Irving Feld's touring show that played here last week each credits their training in the gospel field with doing much to lift them up to jukebox, TV, theatre and nightclub fame. On this tour, which will take them from coast-to-coast and Canada, they started singing some religious tunes backstage and it sounded so good that if they can get permission from their respective firms, they want to turn out an album of their favorite gospel songs as a trio.

WOODY'S FIX-IT CLINIC

You can take the squeak out of a stair tread by driving a couple of 2-inch finishing nails through the tread and into the riser. Countersink heads with nail set and fill in over them with Plastic Wood a bit more than full. Sand down after Plastic Wood has hardened and touch up with shellac, varnish stain or paint to match tread.

If the wooden clothes pole in a wide closet is sagging and threatening to break under a heavy load of hangered clothing, it's a good idea to replace it with an equal length of ordinary one-inch diameter iron pipe. The pipe will stand up under the heaviest load you could conceivably place upon it.

SELAH
The term selah was used in the Bible and appears frequently in the Psalms. It is usually considered as a direction to singers or readers to lift up their voices at the close of a section.

BENEFIT OF CLERGY
The benefit of clergy was a privilege formerly recognized in England by which the clergy accused of capital offenses were exempted from the jurisdiction of lay tribunals and were left to be dealt with by the bishop. Though originally it was intended to apply only to the clergy or clerks, later every one who could read was considered to be clerk.

A layman could receive the benefits of clergy only once, however, and he was not allowed to go without being branded on the thumb, a punishment which later was commuted to whipping, imprisonment or transportation. The benefit of clergy was abolished 1827.
